SERVICE BULLETIN

#012811

DATE: January 28, 2011

TO: Authorized Evans Tempcon Service Centers, OEM customer service personnel

SUBJECT: RV218545 Ranco Electronic Water Valve & RV218547 PC Board to be replaced by
RV218809 Evans Electronic Water Valve Kit.

The Ranco Electronic Water Valve and its accompanying PC board, supplied as recently as 2002 on motor homes with an Evans Tempcon Inc. dash HVAC system, are no longer available and are being replaced by our current design Electronic Water Valve.

Because of wiring differences, the replacement valve with its internal PC board will be supplied in kit form as Evans P/N RV218809 and it will be supplied with all parts necessary to make the installation. Note that the existing wiring from the potentiometer to the valve will be replaced and the existing PC board will be taken out of the circuit.
