RECREATIONAL VEHICLES

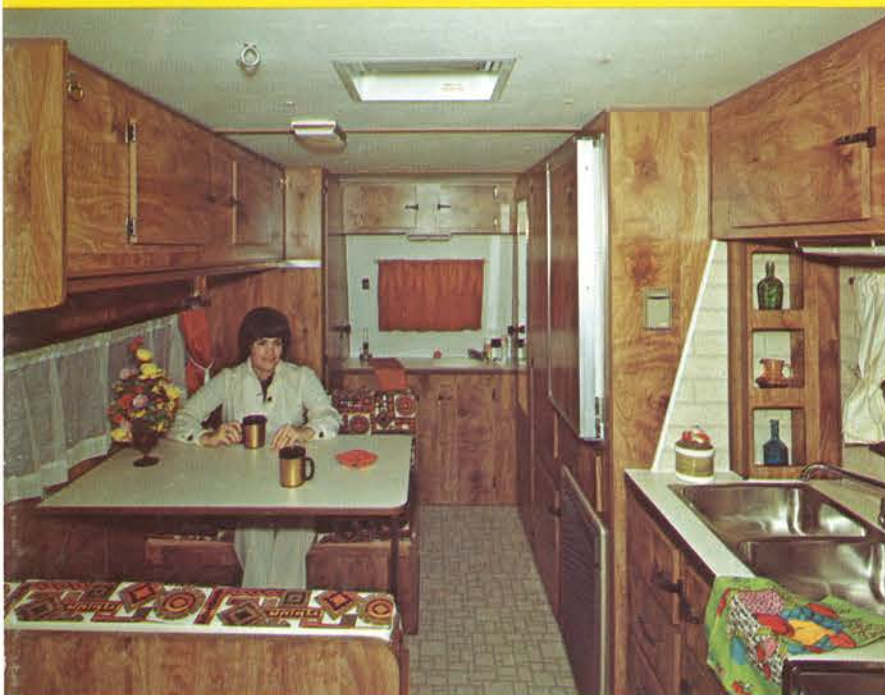

FILLED WITH GOOD, NEW IDEAS FOR GOING STEADY

# ARABIAN

Filled with good ideas for looks  
and good ideas for safety.

A spacious rear vanity with storage above and below is the prime attraction in the 22', 5th Wheel. Behind the mirrored door is the stool, and enclosed on the opposite wall is the large shower. The convenient dinette-kitchen arrangement with storage areas above are obviously attractive and very livable.

The 5th Wheel 22' Rear Vanity model has a carpeted "second story" bedroom with twin beds, overhead cabinets and plenty of head room. A large chest is built in on one side of the carpeted steps and a wardrobe is on the other side.

Getting the 22' 5th Wheel ready to go is as much fun as going. This popular model has radius corners all around and an enclosed gas bottle storage to enhance its sharp appearance. Tandem wheels make it tow easy and the raised roof makes living extra enjoyable.

New radius corners all around; red and gold accent striping; radius corner front awning; all these striking features add up to handsome looking recreational vehicles that maintain the same sharp appearance for years of RV enjoyment.

Full attention is given to forever important safety features. These include good basic construction; safety glass in the windows; tandem axles with electric brakes on all 4 wheels (except 18' trailer and 19' 5th wheel); exterior road safety lighting system; break-a-way switch; heavy duty coupler and more features that are listed in the specifications.

An Arabian is hard to beat in looks and safety—in fact, in its price range, its practically unbeatable.

5th Wheels • Travel Trailers • Floor Plans

The 28' Center Bath travel trailer features an extendable table that drops down when not needed. The large sofa bed sleeps 2. This Arabian living area is fully carpeted (optional) and has 6 large awning type windows.

# ARABIAN

Filled with good ideas for comfort  
and good ideas for convenience.

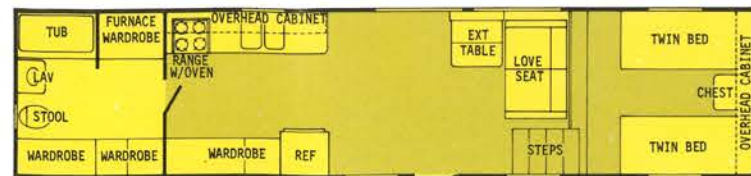

Comfort! A requirement almost universally wanted by today's RV people. Comfort in Arabian means thermostatically controlled heat; heavy foam cushions; large sleeping and storage areas for 4 or more; complete baths in every model (except the 18' travel trailer) and cozy, color decorator schemes.

In convenience, the Arabian has it all together. Self-containment in electrical, plumbing and pressure water systems; medicine cabinet and mirror; front travel awning; exterior storage access doors; well arranged interiors that are filled with convenience ideas from one end to the other.

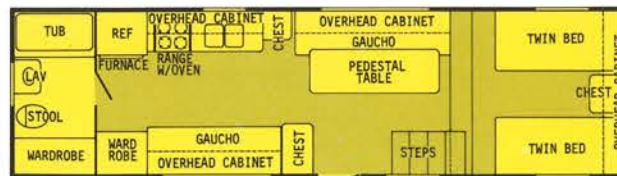

Attractive vinyl coated paneling is used throughout all Arabian travel trailers. The 28' Center Bath kitchen can have the optional china cabinet in addition to its other storage areas. Besides the 4 burner oven-range and double stainless steel sink, this kitchen has knick-knack shelves, mirror and a fold-down extension to the cabinet top beside the sink. There are twin beds in the back bedroom behind the center bath that features a tub and shower. The 3-drawer chest beside the door and the bedroom carpeting are optional.

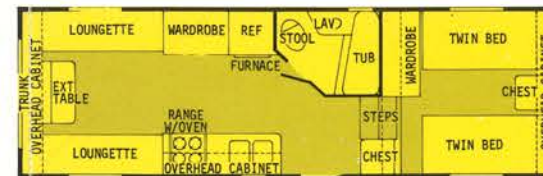

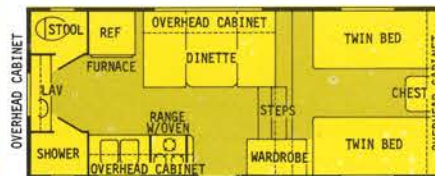

35 Ft. REAR BATH

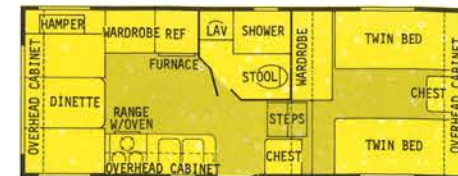

30 Ft. REAR BATH

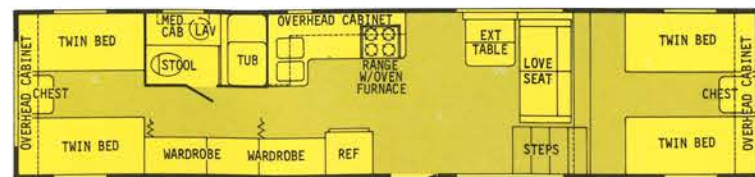

26 Ft. FRONT BATH

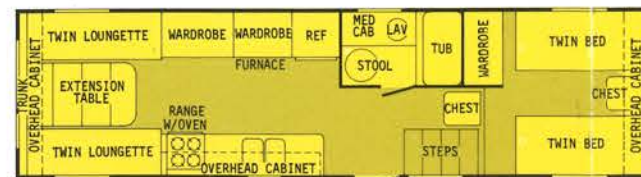

19 Ft. REAR VANITY

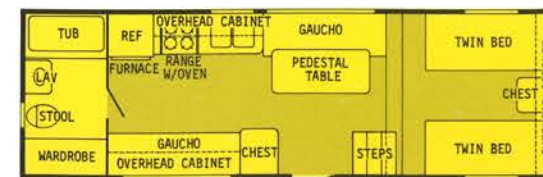

22 Ft. FRONT BATH

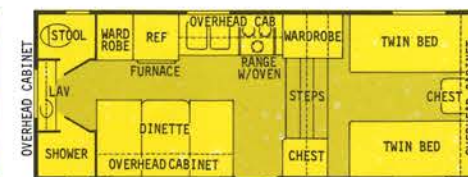

35 Ft. CENTER BATH 2 BEDROOMS

22 Ft. REAR VANITY

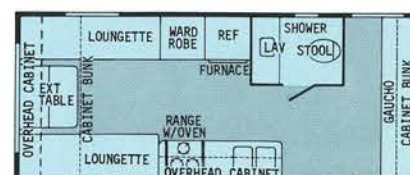

The 28' has both front and rear doors. The rear door, a convenience and a safety feature is an option. It tows easily on tandem wheels and underneath its good looks are hidden dozens of structural and safety features. These assure a long life that will make going steady a carefree experience for many years.
