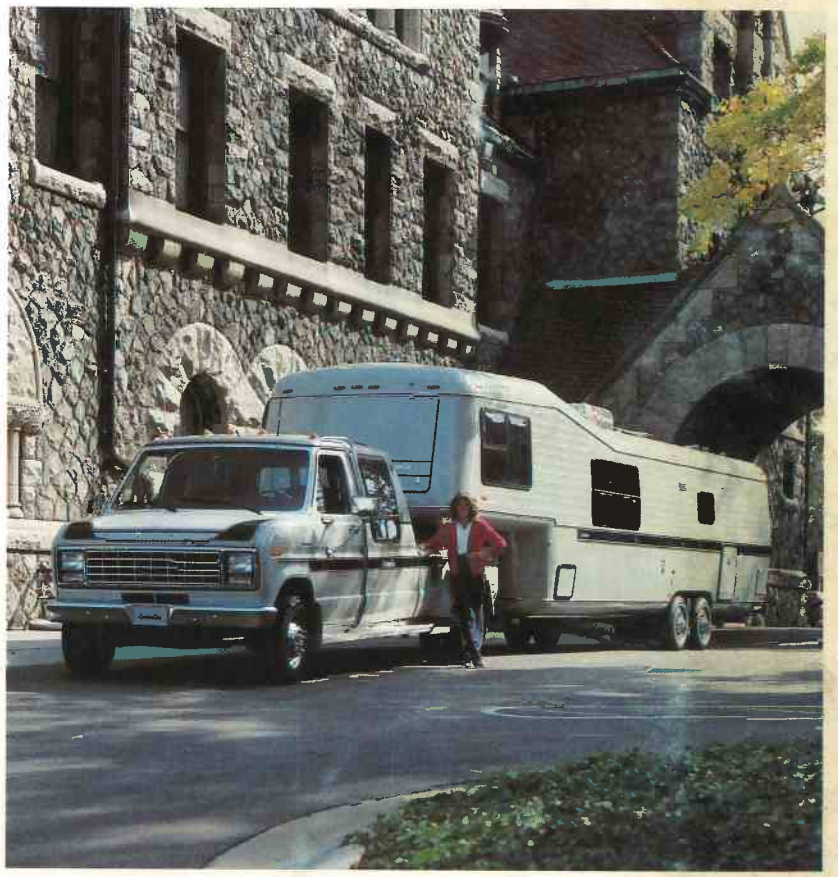
London Aire

Extraordinary Recreational Vehicles



A few words about your London Aire Brochure

We have tried to make this brochure as complete and factual as possible. However, some of the information may have since been up-dated. Also some features shown are only available at extra cost. Before ordering, ask your dealer for the latest details.

London Aire's home	15

Welcome to the sophisticated comforts of London Aire

The array of exemplar items in the noble London Aire is enough, we believe, to satisfy almost anyone. It is obvious these recreational vehicles are designed to be unsurpassed. The challenge of building an exceptional recreational vehicle has been met by both the Newmar designers and the experienced workmen on our assembly line.

The comfort and entertainment features such as air conditioning, cushioned carpeted floors, automatic lights in closets, AM-FM stereo, soft fluorescent lighting and natural oak paneling are but a few of the items that make the London Aire a completely luxurious vehicle — even before additional available items are added.

Rest assured, the relaxation offered by any London Aire is enough to give you a long and satisfying experience.

5th Wheel trailers

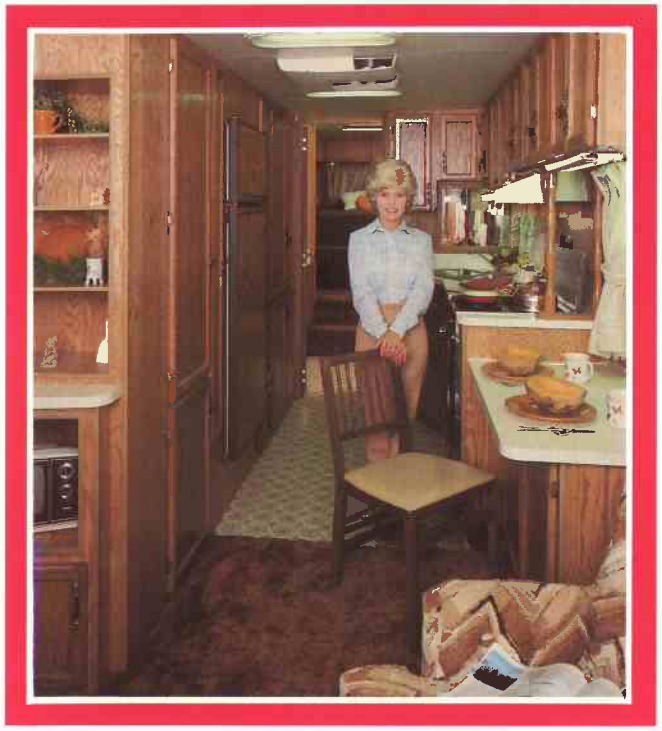
....the epitome of charm and choice with an aerodynamically sound exterior

The London Aire has allure that can fascinate even the veteran recreational vehicle owner. It is a truly fine product, expertly designed, quality built and enjoyable to live in.

The charm that attracts is an exterior appearance that reflects a desire to build a unit of unabashed luxury. Also, the interior says welcome to high-level living with cozy living areas, kitchens loaded with capabilities, up to date baths and a storage system that meets dozens of needs.

The choices you receive in the London Aire line are extravagant. Consider the choice of models, lengths, interior arrangements and matching tow vehicles.

Further, there is a choice of tasteful decors, interior furnishings and posh available equipment. It will pay to choose all of these with consideration -



LEFT: The kitchen area is conveniently designed and comes equipped with many pleasing refinements like cushioned tile flooring; pull-out pantry; and natural oak cabinets.

FAR LEFT: The 35' London Aire Fifth Wheel, pictured here, on the cover, and on page 3, is featured with the matching London Aire tow vehicle. These make a combination to please the most particular RV enthusiast.

BELOW: An attractive dining area is immediately available by raising the extendable table that can seat up to six people. The master bedroom in back is restful, has a wardrobe, stand-up dressing area and a TV shelf.

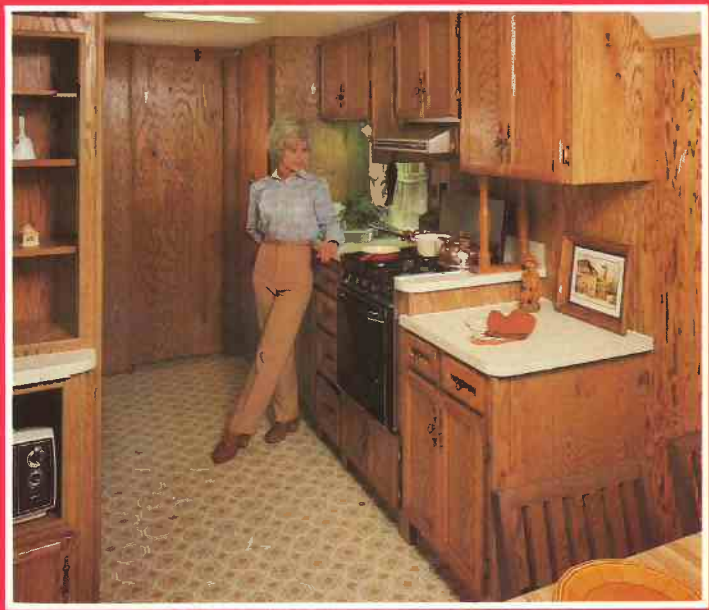
you'll live in your London Aire a long time.

The aerodynamic contours will challenge the looks of any RV anywhere. Besides **beauty** the basic reasons for these contours are smooth **towability** and full **efficiency.** All three basics are an integral part of each London Aire and make the appearance and functioning of the vehicle a maximum effort.

Warm, livable and practical interiors

The remarkable London Aire interiors are as practical as they are inviting. Paneled for people who appreciate fine woods, the natural oak is finished to keep and enhance its natural good looks. The real wood adds character, every panel is original for a feel, color and texture that is unique. The ceiling is a padded acoustical vinyl panel that quiets sound while it looks beautiful.

With London Aire you enjoy interiors decorated by people who have years of experience in this field. There is soft, fluorescent lighting throughout, and four tasteful decors: Almond (light) Brown, Burma (dark) Brown, Irish Setter Rust, or Sea Swell Green. The harmonizing colors, all in soft shades that are relaxing and beautiful, are carried throughout each unit to give it a sense of balance and design. The elegant window treatment and tinted windows provide privacy 24 hours a day and give the interior a distinctive personality.



ABOVE RIGHT: The London Aire Fifth Wheel kitchen comes completely equipped and has a generous amount of counter space and storage cabinets.

RIGHT: The optional high-lo dinette table can convert to a standard size coffee table. The table and two wooden folding chairs are just one of the many available items.

LEFT: The London Aire Travel Trailer kitchens feature a double basin stainless steel sink, four burner oven range and hood, Norcold refrigerator/freezer, pull-out pantry, and natural oak cabinetry for people who appreciate natural wood.

BELOW LEFT: The pull-out pantry is an excellent example of the innovative use of storage space in all London Aires.

The travel trailer

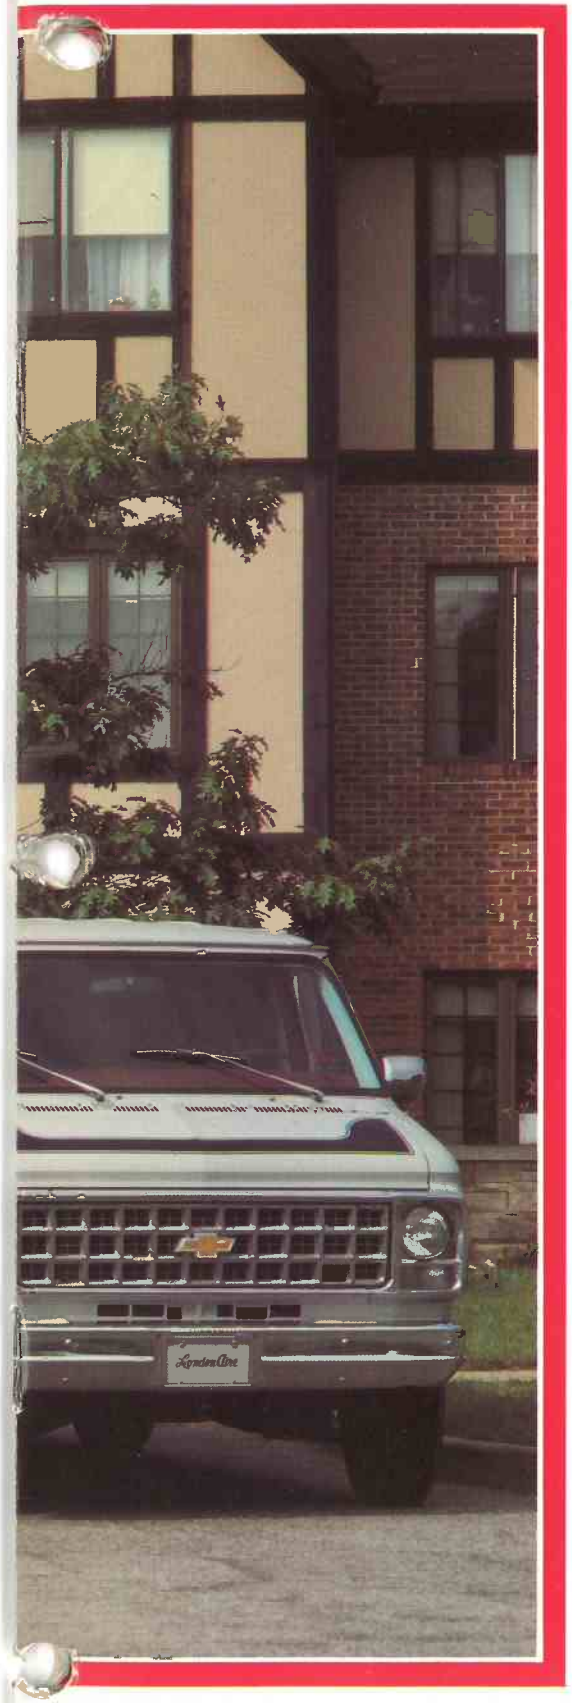
a synthesis of beauty and construction

The London Aire is built on a specially designed frame of 6 inch 11 gauge steel tube. The walls and roof are a completely welded aluminum superstructure. But the unit was designed to have more than just strength and beauty. . . .it is also aerodynamically sound. Its smooth aerodynamic design creates a flowing ride, reduces air drag and gives ideal stability. Also, each unit has tinted safety windows, full insulation in all exterior surfaces and ACRA-TRAC™ wide-track suspension.

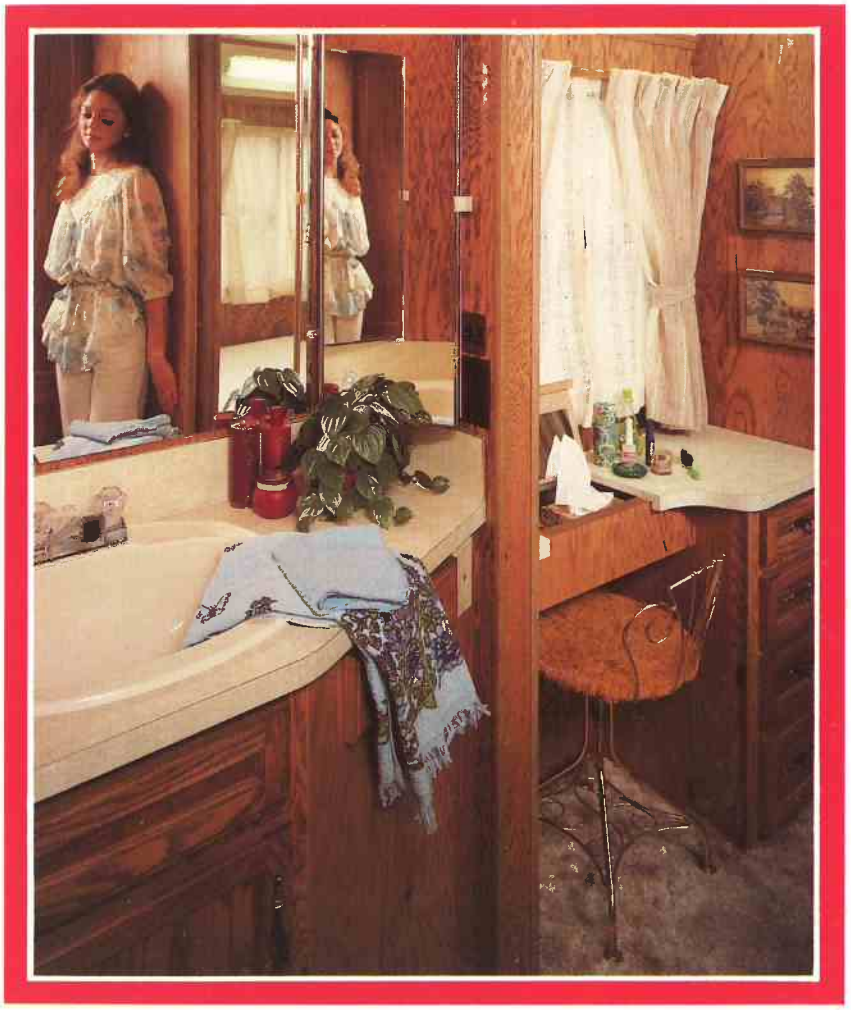
LondonAire

elegance inside and out

Before you even step into a London Aire, you know that it's not just another typical recreational vehicle. There is a certain fluidity, a sense of grace as is evident in all well-made things. When you see the outside, you expect the interiors to be something special and you won't be disappointed.



LEFT: London Aire has a rich heritage of introducing innovative ideas. They give a touch of radiance to your recreational home and it is almost too beautiful to tow away.



ABOVE: The London Aire bath features a large shower and tub combination. In addition, the oak vanity offers an oversized lavatory and a 3-mirror medicine cabinet with a theatrical light bar.

ABOVE: Warm oak woods and a harmonious interior design make the London Aire travel trailer a leader in its field. The cushion carpeted living area is plush and comfortable. The hushed colors enhance the genuine woods to provide a truly excellent appearance.

RIGHT: The aerodynamically designed London Aire is sharp from any angle. The front and rear windows of the trailer are covered by special lock-down awnings that fit flush with the unit's aerodynamic styling.

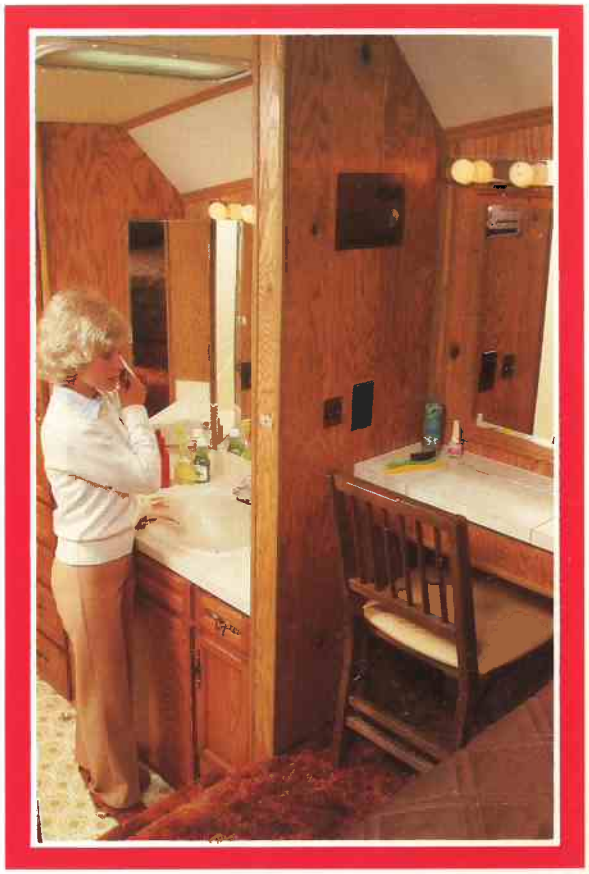
London Aire's extraordinary standard features

The very high level of "standard" equipment should please just about anyone looking for a premium quality recreational vehicle. However there are additional luxurious items that are available. Not all are mentioned in this brochure.

LEFT: The monitor panel is just one of the available features offered for your London Aire. It monitors the fluid level of the fresh and waste water tanks and the condition of your 12 volt battery, helping make the care and upkeep of your London Aire an easy task.

BELOW LEFT: A digital clock with a 24 hour alarm runs on 12 volt electricity.

BELOW: One of the many standard luxury features in the London Aire Travel Trailers and Fifth Wheels is the stereo AM-FM radio with cassette player. It comes complete with four 10 oz. coaxial speakers.



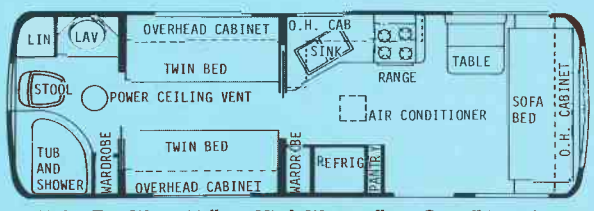
ABOVE: The bedroom has the added feature of a dressing vanity table (chest of drawers available) and is located conveniently near the beautifully designed walk-thru bathroom

What London Aire's aerodynamics does for you

The flowing lines of the aerodynamic contours, of a London Aire Recreational Vehicle, reduce air drag substantially, provide it with ideal stability in handling and towing.

Pick the plan and size that best suits your needs. Ten plans in 5 lengths from which to choose. Each plan is a masterpiece in RV know-how and experience.

the Travel Trailers



27' Baron T.T. - Dry Wt. 5400 lbs. - Hitch Wt. 700 lbs. - Overall Length 27'8"

at home with London Aire

Our offices are designed for efficiency and working comfort. They house a new IBM computer that stores information on every business function, on every unit sold, and on the needs of each dealer. The plant is a 120,000 sq. ft. facility. Besides the manufacturing area, it has a research and development center; an engineering and drafting department; and a large customer service division. The office and factory are located in a rural community that provides the quality minded workers needed to continually produce our top notch product.

The beautiful Newmar Industries lobby says welcome to all who enter. Many owners and would be owners have been kind enough to visit our offices.

Our offices house the personnel for both the London Aire and Kountry Aire recreational vehicles. We have recently enlarged our facilities to accommodate the increasing needs of our business.

MORE STANDARD FEATURES

80 amp battery with 40 amp converter • Fire extinguisher • Automotive type aluminum bumper • 2 or more exterior storage areas • 12" electric brakes • Power jacks on travel trailers • Manual jacks on 5th wheels • 30 lb. aluminum gas bottles • Stabilizer jacks • 25' exterior power cord • 34 gal. fresh water tank • 2, 35 gal. waste holding tanks.

Acra-Trac™ Wide-Track Suspension System

Every London Aire is equipped with the cushioned ride of the Acra-Trac suspension system. The system gives superior stability; comfort and control while braking; a soft smooth ride for both the London Aire and its tow vehicle; and requires a minimum of lubrication and maintenance.
