

the remarkable London Aire for 1983

The beautiful Newmar Industries' lobby says welcome to all who enter. Many owners and would be owners have been kind enough to visit our offices.

Our offices house the personnel for both the London Aire and Kountry Aire recreational vehicles. We have recently enlarged our facilities to accommodate the increasing needs of our business.

a few words about your London Aire Brochure

We have tried to make this brochure as complete and factual as possible. However, some of the information may have since been up-dated. Also some features shown are only available at extra cost. Before ordering, ask your dealer for the latest details.

welcome to London Aire's home

Our offices are designed for efficiency and working comfort. They house an IBM computer that stores information on each dealer. The plant is a productive 120,000 sq. ft. facility. Besides the manufacturing area, it has a research and development center; an engineering and drafting department; and a large customer service division. The office and factory are located in a rural community that provides the quality minded workers needed to continually produce our top notch product.

The 40', tri-axle London Aire sports London Aire's singularly, remarkable exterior contour, and features the sleek, red pin striping, a sparkling chrome bumper and aluminum styled wheels. (luxurious matching tow vehicles are optional)

London Aire—a rare treat for you

The array of exemplary items in the noble London Aire is enough, we believe, to satisfy almost anyone. It is obvious these kingly recreational vehicles are designed to be unsurpassed. The challenge of building exceptional recreational vehicles has been met by both the Newmar designers and the experienced workmen on our assembly line.

The rare standard comfort and entertainment features make the London Aire a completely luxurious vehicle — even before additional available items are added. Rest assured, the relaxation offered by any London Aire is enough to give you a rare treat for a long time.

(far left)

The London Aire living room has a free standing hide-a-bed, comfortable swivel chair and valances to match. The walls are Tailormade Tweed 1/4" vinyl board and the cabinetry is oak.

Sleek lines adorn the 29' London Aire travel trailer. All windows are tinted for privacy and a cooler interior.

relish the beauty of London Aire

Before you even step into a beautiful London Aire, you know that it's not just another typical recreational vehicle. There is a certain fluidity, a sense of grace as is evident in all well-made things. The beauty of the London Aire has allure that can fascinate even the veteran recreational vehicle owner. It is a truly fine product, expertly designed, quality built and enjoyable to live in.

The charm that attracts is an exterior appearance that reflects a desire to build a unit of unabashed luxury. Also, the interior says welcome to high-level comfort with cozy living areas, kitchens loaded with capabilities, up-to-date baths and a storage system that meets dozens of needs.

Oak cabinetry with wicker design doors are highlights of this handy well-designed kitchen. The cabinet doors have easy push release latches and the back splash is a striped, Tailormade Tweed washable vinyl. The drawers are all wood and a divided silverware drawer is included.

warm, livable and practical interiors

The remarkable London Aire interiors are as practical as they are inviting. Designed for people who appreciate easy to care for walls, the Tailormade Tweed 1/4" wood backed paneling is finished to keep and enhance its good looks. The paneling adds character with a feel, color and texture that is unique. The ceiling is a padded acoustical vinyl that quiets sound while it looks beautiful.

With London Aire you enjoy interiors decorated by people who have years of experience in this field. There is soft, fluorescent lighting throughout, and seven tasteful decors. The harmonizing colors are all in soft, shades that are relaxing and beautiful. These colors are carried throughout each unit to give it a sense of warmth and pleasure. The elegant window treatment and tinted windows provide privacy 24 hours a day and give the interior a distinctive personality.

This rear bedroom in brown decor, has a dressing table beside the wardrobe. The oak bath vanity has a 3-mirror medicine cabinet and a light bar above.

kingly comforts inside

The London Aire presents with pride features that are out of the ordinary. To name a few: wardrobes with micro-switch lighting; easy-push release latches on closet doors, AM-FM stereo systems; pull-out pantry; deluxe carpeting in every area; color co-ordinated valances with flush mounted mini-blinds; tinted safety windows; flush mounted front and rear awnings; and all oak cabinets and closets. (page 13 lists more of our kingly comforts.)

A popular plus in some models is this dinette. The deep cushions, large window and designer-glass doors on the cabinets make this dinette area a beautiful place to relax!

The 29' travel trailer offers this extremely attractive kitchen. The double door refrigerator-freezer, stainless steel sink, with single lever faucet, 4 burner range with stainless steel cover, lighted, power vented hood and bread board are all standard.

The front bedroom in a fifth wheel has a double bed and a stand-up dressing area. The walk-thru front bath is exceptionally convenient.

the epitome of charm and choice

The choices you receive in the London Aire line are extravagant. Consider the choice of 10 travel trailer models in 5 lengths, and 10, 5th wheel trailers in 4 lengths; a variety of tasteful and practical interior arrangements and the selection of additional available equipment.

Further, there is a choice of seven tasteful decors, including an array of the following colors: green, wine, persimmon, beige, gray, brown and blue.

The only area where there is no choice is in luxury. The bountiful amount of standard equipment assures luxury in every model. It will pay you to make all your choices with careful consideration. You'll live in your London Aire a long time.

Although matching tow vehicles are popular, they are optional equipment. This 29' travel trailer and the 40' 5th wheel are ready to be towed by your choice of vehicles.

The rear of a London Aire is aerodynamically designed like the rest of your vehicle assuring a smooth air flow.

a synthesis of beauty and construction

The London Aire is built on a specially designed frame of 6 inch 11 gauge steel tube. (double tube frame in models over 33') The walls and roof are a completely welded aluminum superstructure. But the unit was designed to have more than just strength and beauty. . . it is also aerodynamically sound. Its smooth aerodynamic design creates a flowing ride, reduces air drag and gives ideal stability. Also, each unit has full insulation in all exterior surfaces including R-7 in sidewalls and R-14 in the ceiling and floor. Each London Aire rides smoothly on a Rub-R-Ride Suspension axle system.

The raw strength and aerodynamic contours will challenge the construction and looks on any vehicle anywhere. Besides **beauty** the basic reasons for aerodynamic contours are smooth **towability** and full **efficiency**. All three basics are an integral part of each London Aire and make the appearance and functioning of the vehicle a maximum effort.

One of the many standard luxury features in the London Aire travel trailers and fifth wheels is the stereo AM-FM radio with cassette player. It comes complete with four 10 oz. coaxial speakers.

The monitor panel with a digital clock is just one of the available features offered for your London Aire. It monitors the fluid level of the fresh and waste water tanks and the condition of your 12 volt battery, helping make the care and upkeep of your London Aire an easy task.

Pull-Out Pantry

A perfect example of the innovative use of storage space. This pantry is standard in all models and is easily available when needed.

what London Aire's aerodynamics does for you

The flowing lines of the aerodynamic contours, of a London Aire recreational vehicle, reduce air drag substantially, provide it with ideal stability in handling and towing. This permits effortless driving, a smooth quiet ride and better mileage per gallon.

A WORLD AHEAD

London Aire[®]

IN TIME AND DESIGN

MINI MOTOR HOMES

Comfortable indeed. The understated luxury of London Aire interiors is beautiful. Not flashy or garish, but quiet-class that is all pervasive. You may choose from color schemes which include Plantation Cocoa - Seafoam Green - Dusty Rose - Sapphire Blue - and Champagne Accent. Beautiful fabrics, elegant draperies, couches and chairs that spoil you with comfort, and wipe clean with a damp cloth, and finally, rich, thick carpeting. But it's just the beginning, for, like beautiful homes, what you don't see adds to your comfort and well-being.

Even before you enter the Luxury London Aire Mini Motorhome you know it's special. The baked-on dove gray exterior aluminum is truly unique and beautiful. Aerodynamic lines with rounded corners provide smooth exterior appearance, less wind resistance on the road, and improved gasoline mileage. The London Aire Mini is designed to travel the road to your heart's content, with minimum buffeting and wind-shearing that plague many coach owners. The ride is smoother, you arrive rested, refreshed, and ready to enjoy your "home away from home."

TRAVEL TRAILERS

Exteriors

Some RV manufacturers allow you to choose. At London Aire, we invite you to select from the finest. London Aire is built from the inside out, because what you can't see, or may not be aware of, is just as important as what you can see. For example, your London Aire has a six-inch tubular steel frame, and a glued, double $\frac{5}{8}$ inch plywood floor which is bolted to the frame for solidity. The steel frame includes z-bar cross members for lateral strength. The aluminum superstructure of every London Aire is a truss type rib construction. Exterior sidewalls and roof line are contoured for a better drag coefficient, ease of pulling, less wind resistance,

Select from five interior design color combinations: Plantation Cocoa (L-841), Seafoam Green (L-842), Dusty Rose (L-843), Sapphire Blue (L-844), Champagne Accent (L-845).

Picture yourself relaxing or entertaining in this spacious and luxurious Sapphire Blue living room.

and therefore improved mileage. However, inside walls are of a vertical straight line designed for better space utilization. Coaches are double insulated with fiberglass and thermo board attached to exterior skin metal to provide an effective heat and cold shield. Exterior trim moldings are anodized heat-treated metal commonly used in automotive construction. There is a 25-gauge aluminum underbody below the floor. Every construction technique has been implemented to make London Aire solid on the road or at home. Finally, your coach rides on world famous Rub-R-Ride (Comfort Core™) suspension.

Interiors

The understated luxury of London Aire interiors is breathtaking. Select from five color schemes, all new for this model year. Beautiful, rich fabrics, elegant draperies, upholstery and carpeting are all color coordinated to make your coach picture perfect and quietly comfortable. Even clean-up is easier because of the new wipe-clean upholstery finishes.

The best awning in the business is one that works easy. Ours does.

Special chrome-ringed hitch light lets you see anytime, and conveniently lights up propane tanks too. (Aluminum bottles w/gauges).

FIFTH WHEEL TRAILERS

Quality

It's reflected in everything about your London Aire coach. The designer fabrics, the color combinations, the stereo accoustics, the recessed fluorescent overhead lighting and the tinted windows. Rich oak paneling and oak cabinetry were selected for beauty, durability and to provide a warm background which accents whichever color combination you choose.

In addition to your opt. microwave, you'll find a four-burner range with pilot light for top burners and oven. You have plenty of preparation area and pull-out pantry. And the gas/electric refrigerator is larger than those usually found in an RV. In fact, you might like this kitchen better than your kitchen at home!

The electric hitch raises or lowers the coach with fingertip control.

Features

Electric hitch with fingertip control. Lighting in areas where you need it the most, including inside wardrobes, at the hitch, generator compartment, drain outlet, under the outside entry step and next to entry door. Plenty of storage area. All exterior storage compartments have key locks and are weather-tight rubber sealed. Aluminum LP gas bottles with gauge and automatic change-over regulator. Outside drain control valve-pull levers are extended for easy access, but enclosed. Outside stabilizer jacks are quick crank-down type, frame mounted for travel and camping convenience. 30,000 BTU electric ignition furnace on all models except 35'-40' fifth wheels which have 34,000 BTU.

NEWMAR QUALITY IS YOUR REASON TO BUY...

HERE ARE TWENTY REASONS WHY YOU WILL VALUE YOUR DECISION.

1. Six-inch rugged tubular steel frame with cross members and outriggers.
2. All four wheels equipped with 12" electric brake axles.
3. Rust-resistant, insulated, galvanized wheel wells.
4. Double $\frac{5}{8}$ " plywood floor. ($1\frac{1}{4}$ " of solid wood floor.)
5. Completely enclosed, fully insulated, wrap-around aluminum underbelly.
6. Large dual holding tanks.
7. Large fresh water tank with demand water system and standard city water hook up.
8. A.B.S. drain, waste, and vent lines for leakproof joints.
9. All copper "code" approved electrical wiring.
10. The super structure of the LONDON AIRE is a truss type of all aluminum sidewall and roof rib—straight inner wall and contour outer perimeter.
11. Double insulated: Fully insulated with fiberglass plus completely enclosed and sealed with Thermo Board.
12. Smooth aerodynamically designed radius exterior corners.
13. Single seam, heat deflecting dove gray aluminum roof.
14. .030 dove gray aluminum exterior metal.
15. Full opening type, solar efficient, radius corner, Hehr jalousie style windows.
16. High quality $\frac{1}{4}$ " oak paneling w/solid oak wood cabinet fronts.
17. Cabinets and drawers are glued and screwed for maximum strength and durability.
18. Brand new decor package includes following designer color-coordinated selections: Plantation Cocoa (L-841), Seafoam Green (L-842), Dusty Rose (L-843), Sapphire Blue (L-844), Champagne Accent (L-845).
19. Quality name brand fixtures and appliances used throughout.
20. Built to RVIA approved standards and codes for your complete satisfaction and comfort.
