Class A Cockpit

“The Ultimate Statement”

Have you ever wanted to make a statement, a reflection of your character and taste for finer things, but just couldn't seem to find the appropriate words? Why not let London Aire make that statement for you this year . . . ***The Ultimate Statement!***

London Aire has been impressing RVers for years with only the finest quality of genuine hardwoods, etched glass, discreetly designed plush interiors and exteriors and the craftsmanship you've come to expect from Newmar Corporation's finest line of recreational vehicles.

The Ultimate Statement therefore is expected to include all the luxuries and intimate detailing possible in a single coach. With one look at London Aire's list of standard features, you'll be pleasantly convinced that we have made these expectations into a reality.

Short-cuts are prohibited in the manufacturing of any product in this line up. Long hours are spent in the selection of colors, fabrics, hardwoods and hardware. Any components chosen for a London Aire product must meet with rigid inspection for quality, eye-appeal and durability before they are allowed to become a part of ***The Ultimate Statement.***

These strict procedures along with the best components and materials are all combined with an all-aluminum superstructure to insure the London Aire owner that he will enjoy years of beauty and dependable performance in one of the most unique RVs on the road today.

Making ***The Ultimate Statement*** has one slight draw-back however, and we feel obligated to warn you of this minor problem: Wherever you take your RV, people everywhere are going to want a first hand glimpse of something they've dreamed of . . . **London Aire!**
