Newmar Corporation

Uncompromising work standards, ethics and service are only part of what Newmar's world-class quality is all about. An unending passion for this recreation combined with professionals who are experienced RVers themselves, work together to produce distinctive, dependable and durable products that will serve you for many years in a variety of climates. Comfort and convenience go hand-in-hand with any Newmar Product.

Our conviction to satisfy our customers is unchallenged and our aim is to maintain the highest standards in quality and customer service in the industry. A nationwide dealer network is out there ready to serve you and is backed by the Newmar commitment. We are so dedicated to these philosophies that we personally invite you to visit our plant in Nappanee, Indiana (just off U.S. 6 west of town). Tours are offered weekdays at 10 a.m. and 2 p.m. E.S.T. We want our customers to see how we do things firsthand. We want to meet you and extend a welcome into the world of recreational vehicles from a company that sets the trends and standards for the industry . . . Newmar Corporation.

This year marks the Silver Anniversary of Newmar Corporation and its mainstay, Kountry Aire. Twenty-five years ago, the first Kountry Aire travel trailer was created, and through its evolution, London Aire and Mountain Aire emerged to fill out the line. The Aire towables are what Newmar Corporation is all about.

Twenty-five years doesn't seem long to some, yet to others it's an eternity. The past 25 years for Newmar have been very productive, rewarding and successful. We have come a long way from tipouts to slideouts, one brand to six, and from manufacturing towables only to producing Minihomes, Class A's and Diesel Pushers as well as Travel Trailers and Fifth-Wheels. A major contender in the recreational vehicle industry, Newmar possesses the knowledge and experience needed to offer its customers the best possible products available.

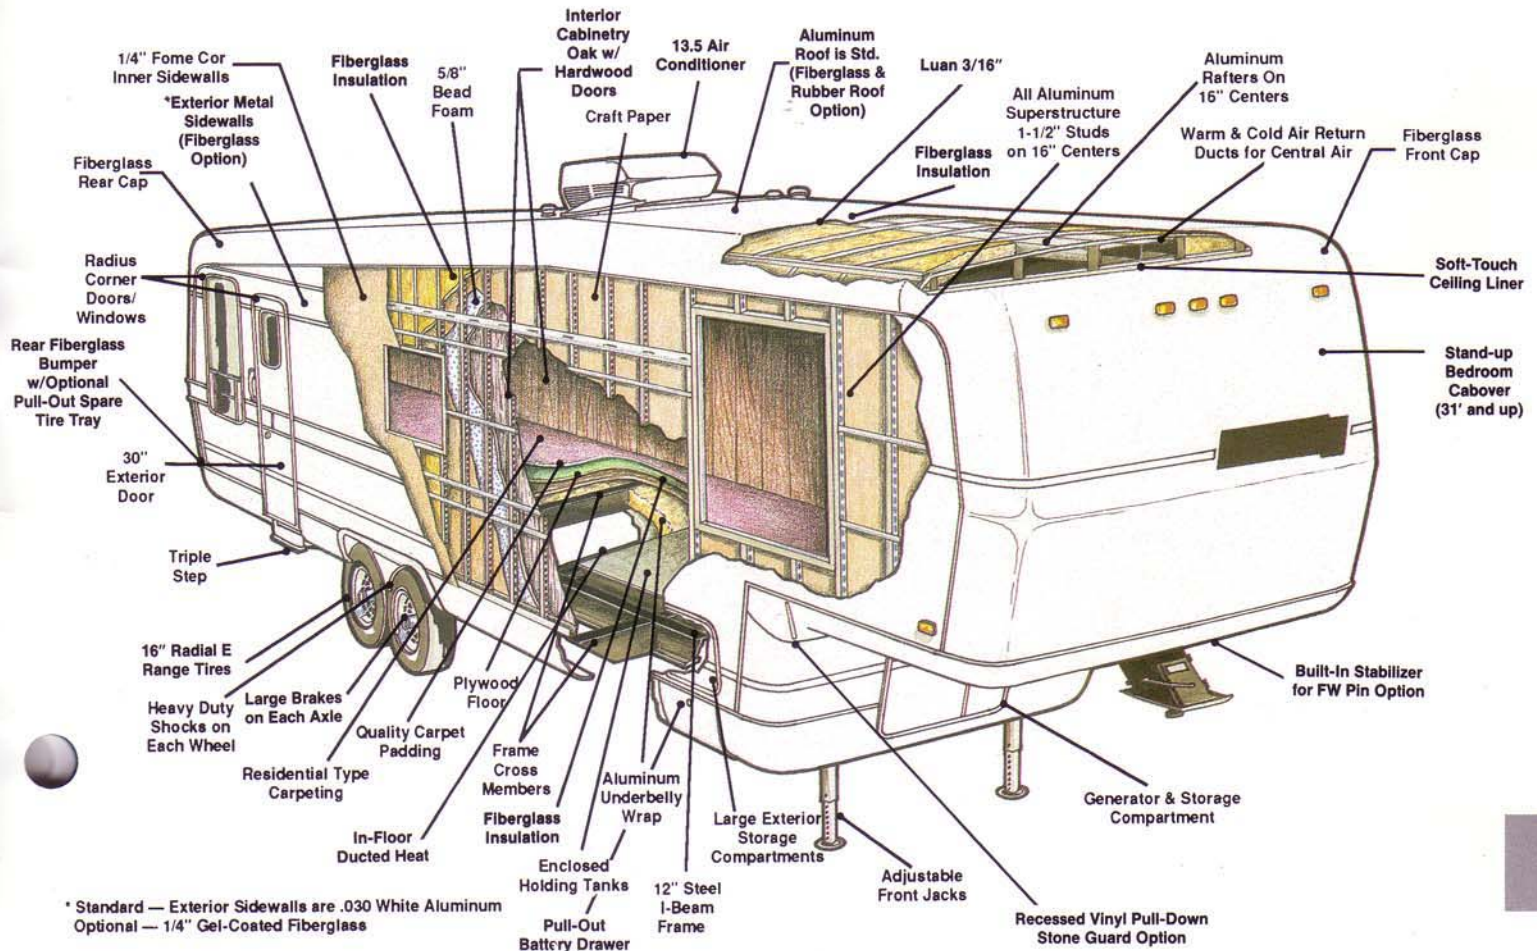

In 1967, when the first Kountry Aire was being designed by Newmar, the average three-bedroom home cost about \$23,000; to-day it averages \$100,000. Gas was 22 cents a gallon, and a new Ford cost just over \$3,000. The first Super Bowl was played; Mickey Mantle hit his 500th career home run; the first heart transplant was success-

fully completed; Pontiac introduced the Firebird; and the Queen Mary made her last voyage. TV was dominated by family shows like *Red Skelton* and *The Andy Griffith Show*. Elvis married Priscilla; The Beatles released *Sgt. Pepper's Lonely Hearts Club Band*; and *The Graduate* won an Oscar for Best Director.

During the past quarter century, our nation put a man on the moon; computers became household items; and a new phrase was coined: "fast foods." In an ever-changing society, however, there is one thing that will stay the same: Newmar's dedication to you, our customer. We thank you for letting us serve you for 25 years, and we intend to keep serving you and providing you with the best products possible in the years to come.

Kountry Aire and Mountain Aire Design

The floor plan shows a second floor with the following features:

- Living Area:** Includes a fireplace, a large sofa, a reclining chair, and a dining table with chairs.
- Kitchen:** Features a range, refrigerator, and cabinets.
- Bathroom:** Contains a toilet, sink, and shower.
- Bedroom:** Has a queen bed and a closet.
- Front Porch:** Accessible via a door.
- Kitchenette:** Located near the front door, featuring a range and refrigerator.

The second floor plan includes a kitchen with a range, refrigerator, and cabinets; a living area with a sofa, chairs, and a fireplace; a bedroom with a queen bed and chest; and a bathroom with a tub and toilet. The plan also shows a raised floor area and a closet.

Floor plan of the second floor of the 'B' wing. The layout includes a lounge area with a B4 sofa, a cocktail table, and several chairs. A kitchen area features a range, a refrigerator, and cabinets. A bathroom contains a shower, toilet, and vanity. A bedroom is furnished with a queen bed, a wardrobe, and a chest. The plan also shows a step well, a step, and a raised floor area.

Floor plan of the second floor. The layout includes a central hall with a raised floor section. To the left is a dining area with a round table and chairs, and a kitchen with a range, double oven, and refrigerator. To the right is a living area with a sofa, a cocktail table, and a TV. A bathroom with a tub and a closet are also shown. The plan is labeled with various furniture and fixtures.

The floor plan shows a rectangular house with a central hallway. On the left side, there is a living area with a fireplace, an entertainment center, and a bay window. A large window is also present. The kitchen is located at the bottom left, featuring a double oven, refrigerator, and a breakfast bar. The dining area is adjacent to the kitchen. The master bedroom is on the right side, containing a queen bed, a dresser, and a closet. The house also includes a laundry room, a central air conditioning unit, and a garage. The overall layout is efficient and functional.

Floor plan of the second floor of the apartment. The plan shows a large living area with a fireplace, a large sofa (B4 SOFA), and a TV stand. There is a dining area with a table and chairs, and a kitchen area with a range, refrigerator, and cabinets. A bathroom is located near the kitchen. A bedroom is at the rear with a queen bed, chest, and wardrobe. A closet is also shown. The plan is labeled 'ENTERTAINMENT CENTER' on the left and 'RAISED FLOOR' in the center.

In the March 1992 issue, *Consumer Digest* named London Aire fifth wheels **the** best buy in the premium fifth wheel market!

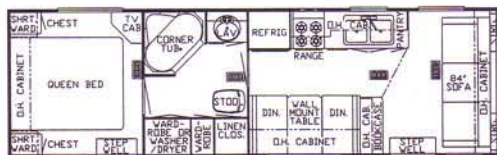

Newmar prides itself on the practical layouts and wide variety of floor plans, slideouts and options we make available to our customers. Offering such a large selection of styles, interiors, types, models and sizes of

RVs enables the Aires to be **the** most elite line of towables in the marketplace. After all, a company with the reputation of being the "experts in fifth wheels" and slideouts can't afford to offer anything less.

We didn't gain our reputation overnight. It's taken 25 years of experience in the field with knowledgeable personnel to make the Aires what

they are today. We will continue to serve you in this manner, undaunted by the barriers presented by this economy and industry. Kountry Aire, London Aire and Mountain Aire for 1993 are the best we've ever produced, so look over these floor plans, options and features from Newmar.

The patented automatic door stop retracts when the entry door is closed. It is standard on all London Aires.

The sliding L.P. tank tray is a valuable feature because it effortlessly brings the bottles to you. You don't have to bend over and reach inside a dark compartment and fumble with the valves or fittings to change tanks.

If you ever had to fight finding easy access to your generator in conventional fifth-wheels, you can really appreciate what London Aire offers as an alternative. This sliding generator rack makes generator maintenance a breeze.

Heavy-duty 16-inch wheels and oversized brakes let you tow in comfort and safety. All London Aire units have 12-1/4" x 3-3/8" brakes to produce a much larger braking area that will handle the load and give you peace of mind.

No space is wasted as is demonstrated here with these large available storage compartments that may be located behind the sofa and are accessible through the exterior slideout wall. Belongings are weather-proofed, too. And speaking of slideouts, our new "Synchronized Quiet Slide," rack-and-pinion power slideout mechanism offers stronger, faster, smoother operation than ever before.

Standard features like the front fifth-wheel stabilizers (which store in the lower front wrap of the cabover), the roll-down stone guard and the effortless power jack with convenient snap pins are what set London Aire apart from all the rest.

The power window awning, molded-in roof ladder and sliding bumper tray for spare tire and sewer hose are exclusive features that are standard on London Aire.

A

One option continually growing in popularity is the stackable washer/dryer. No one likes to fight the heat and crowds at laundromats, and it's such an inconvenience to load everything up and find one if you're in an area unfamiliar to you. The handy built-in shelf slides forward and provides the perfect place to fold your laundry. This feature makes a tough job simply a breeze.

No matter where you go, rooms have a tendency to get stuffy at times. The ceiling fan option is the answer to this problem in any kind of climate. It's attractive, and will circulate and distribute the air whether warm or cool.

"Already a top-quality, luxury-grade fiver, the Mountain Aire with the big slideout becomes even more attractive to full-timers or others interested in extra-large fifth-wheel trailers."

Trailer Life magazine

The nuances of Mountain Aire leave you with the impression of a high-line coach. The large slideout comes into play lending a remarkable feeling of roominess. The residential-style furnishings, appliances,

oak cabinetry, leaded glass, hardwood parquet flooring and a stunning array of fabrics and textures all combine to make this room a desirable place to relax in comfort. Many of the standard features of

Kountry Aire are included with Mountain Aire travel trailers and fifth-wheels. With an endless list of options to choose from, you can tailor one of these fine coaches to your individual taste.

MOUNTAIN AIRE

The Mountain Aire line is an entry-level coach in the high-end spectrum of the Aires. Your first look inside a Mountain Aire fifth-wheel bedroom pictured above, leaves no mistake that it's in the Aire family. Newmar's unique Honeymoon Suite concept is again incorporated to provide

the avid RVer with not only a place to lay their heads at night, but ample room to freely walk around and dress in a posh and private setting. Popular oak finishes add beauty and warmth to the room.

Every aspect of a Kountry Aire is carefully planned and thought out before selections are made in materials and components. When an entire reputation is built on our name, we can't afford to cut corners anywhere in, or on, the coach. Note the

practical use of countertop space and the functional drop-leaf countertop extension in this fifth-wheel galley. Every inch of available space is functionally put to use. The splendor of oak finishes in the cabinets and parquet floor incorporated with the angled

porcelain sink and strategically positioned appliances make this a practical setting for creating those tantalizing dishes. The available large residential-style side-by-side refrigerator tops it off, providing lots of room for cold as well as frozen foods.

This feature speaks for itself. Organization at its best describes the slideout pantry. Food items are at your fingertips with this smooth operating feature and no space is wasted.

Cleaning fluids, paper towels and dishwashing items can be uniformly stored and easily retrieved under the sink with the revolving shelf concept. A feature the ladies are sure to appreciate.

The Lazy Susan isn't new, but in this overhead corner cupboard, this standard feature utilizes space and like the under-sink storage, puts frequently used items within easy reach and out of your way when not in use.

"I would like to buy a new Kountry Aire, but my wife won't let me, as she is completely satisfied with this one. What we both like about our 1983 unit is its long wear life and complete comfort. We know, as we are full-timers and our unit has 84,000 miles on it, we are happy owners . . . See our Smiles . . ."

Melvin and Maxine Warren
Burlington, Washington

This is our newest standard feature in the Aires. These swinging dinner/snack trays are revolutionary to say the least! They're sturdy, convenient, and pivot on an arm which swings into position or out of the way. When not in use, the tray lifts off the pivot arm, and is stored away in the compartments built into the arms of the magic bed. What a handy way to feed the troops!

Imagine spending the night with friends and being offered sleeping accommodations like this. The standard magic bed is so inviting to weary travelers that they might not want to get up early the next morning. It acts as a comfortable sofa during the day and takes up very little space when extended.

Who wouldn't feel at home in a Kountry Aire fifth-wheel with a slideout up to 17 feet? Whether it's just the two of you, or a group of friends, these coaches provide all the room and

comfort you'll need. The freestanding dinette and chairs and swivel rocker/recliner add to the versatility of this room. The skillful appointments of

lighting fixtures, draperies, upholstery and the tactful use of leaded glass and brass integrate into a room with both character and function.

KOUNTRY AIRE

Kountry Aire, the flagship of Newmar Corporation, is better than ever for 1993. We've come a long way since 1967 and it's obvious in the exquisite travel trailer living area shown here. Kountry Aire fans all over North America and abroad have continued to return to their favorite RV and here are a few sound reasons why. Twenty-five years ago, Newmar set out to develop and manufacture recreational vehicles that would meet the needs of their users. At that time, when RVs were in their infancy, the opposite was practiced: Company's developed units based on their own ideas and forced them onto the buying public.

Ever since its inception, Kountry Aire has strived to

build coaches based on what its customers wanted with an unyielding standard of quality and excellence. That's how Newmar became the experts they are today in travel trailers, fifth-wheels and the power slideout concept. Professionally trained engineers, craftsmen and an on-staff, uniquely qualified interior designer all combine years of experience to produce the finest recreational vehicles available. Many of these technicians are seasoned RVers themselves, and they know from experience what it takes to be comfortable away from home. Add to this the luxuries and the pre-eminence uncommon in most homes, and you'll understand why Kountry Aire is a mainstay in the industry.

From elegant furnishings to top-of-the-line construction, London Aire coaches are a dream to own. In addition to the attention you receive when you pull into each new campsite, with a London Aire you have the assurance of knowing you own the most elite fifth-wheel in the market today.

London Aire coaches have a Lifetime Limited Warranty on Superstructure including the innovative 16-inch I-beam undercarriage. Uniquely designed, the 16-inch I-beam frame provides all the strength and safety needed to support your home on wheels as well as an enormous amount of storage space in large bottom compartments.

Take your next trip in style; take it with a new London Aire fifth-wheel. The pleasure is all yours!

"In 8 years of travel we have never entered a campground where we have not received complements on our London Aire Fifth-Wheel . . ."

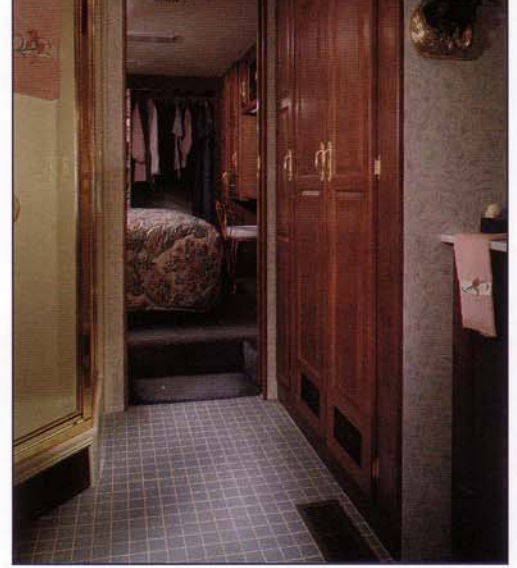

Col. George Lokken, U.S. Army Ret.
San Antonio, Texas

The bath in the London Aire is definitely not your standard RV bath. The featured corner tub/shower and large wardrobes, accented by the elegance of ceramic tile and enough floor space for uninterrupted movement offers a very private and functional setting in harmony with the London Aire look and quality.

"The bathroom has more than adequate dressing space, even if another person is standing at the vanity sink, and there's easy access to the full-length wardrobe . . ."

Trailer Life magazine

The classic Honeymoon Suite is the perfect setting for a full night's rest, napping, watching television or getting ready for the coming day's events. Full-length mirrored wardrobes add to the already spacious character of this room and the matching quilted bedspread and pillow shams give it the warmth and hominess of your own bedroom.

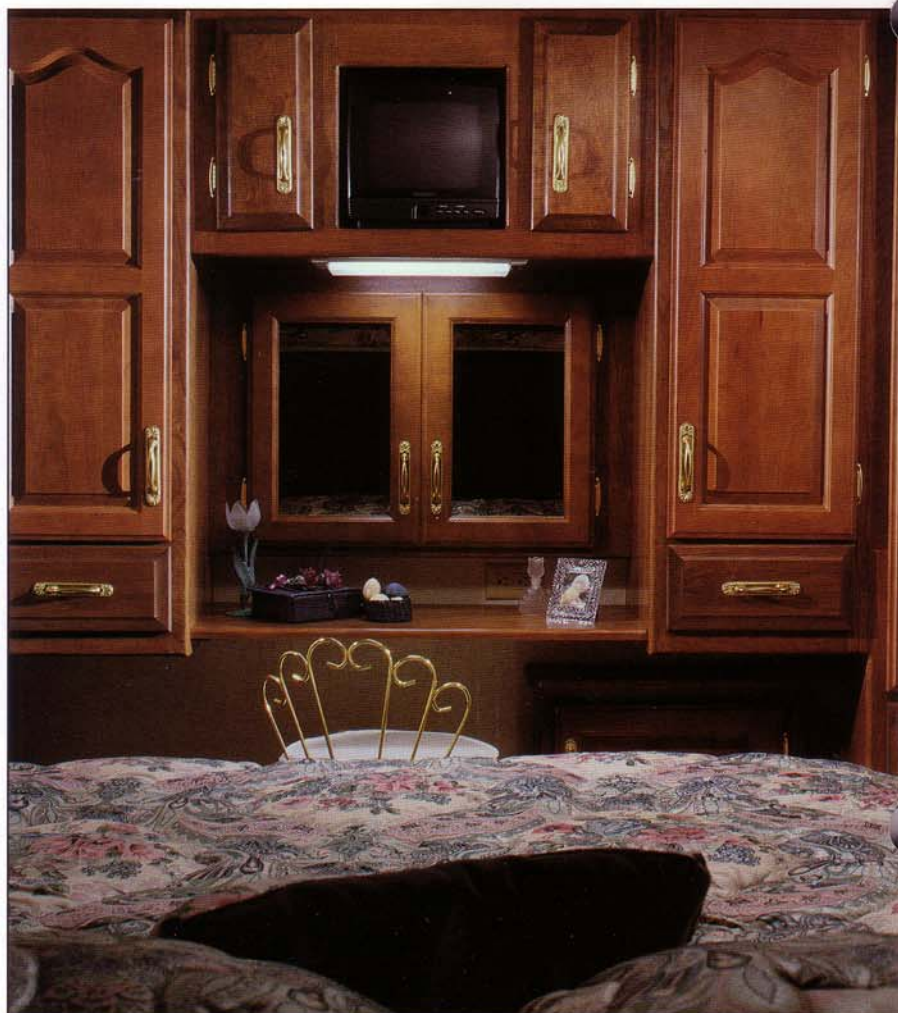

This formal dining area is luxurious enough for any important occasion, yet is designed to be used for a casual setting as well. The overhead cabinet with spindles and lower cabinet act as a natural room divider without sacrificing space. The free-standing dinette and chairs make this a very versatile and comfortable location for games, lunches or planning your next trip.

***"Best Buys in Fifth-Wheel Trailers
... London Aire ... the ultimate
home on wheels."***

Consumer Digest

What lady of the house wouldn't feel at home with Newmar's exclusively available vanity center in the London Aire fifth-wheel bedroom? Conveniently located and designed to provide correct lighting with ample storage for all your cosmetics.

After your busy day of visiting and sightseeing, lie back in comfort and style with London Aire's recliner, standard equipment in these fine coaches.

This handsome corner entertainment center not only provides an inconspicuous, easily visible spot for the TV, but has storage below for VCR and tapes plus a beautiful, leaded glass curio cabinet above for your favorite collectibles.

Every seasoned RVer knows that you can't be too organized. The handy, slideout pantry is just one more convenience Newmar offers its customers. This smooth operating feature keeps all food items securely in place and puts them within easy reach when you need them.

Unprecedented beauty prevails in the London Aire living areas. Our experts begin with the basics, and that is a practical floor plan, expandable space (the "Synchronized Quiet Slide" large power slideout), and the best construction and finishing materials money can buy. When you add to these

basics an unpretentious talent for interior design and the incomparable engineering experience Newmar is noted for, the sum is London Aire.

A masterful blend of distinctive fabrics, draperies and luscious, thick carpeting intertwine with exquisite nuances like

beveled, leaded glass, brass lighting fixtures and hardware, beveled mirrors and domestic furnishings. Every detail is carefully attended to and manifests itself into an RV that is referred to by many as the "Cadillac of the industry."

LONDON AIRE

Newmar Corporation, "the experts in fifth-wheels," presents the Ultimate: London Aire. Unrestrained luxury is the focal point of London Aire. Designed for those folks not satisfied with the ordinary, these superb coaches combine the best of the art, science and engineering that are capable in a towable unit. If it's total elegance you're after, this is the RV for you.

The galley above greets you with blended cherry

hardwood cabinetry and the new planked flooring. A large pantry, residential-style side-by-side refrigerator and available dishwasher give the room a domestic aura. The conventional range top/convection microwave, Corian countertop, double sink with matching covers and an abundance of drawers and cupboards enhance the area and provide a spacious gourmet and dining facility unmatched in some of the premier homes of today.

Features

LONDON AIRE	3
KOUNTRY AIRE	9
MOUNTAIN AIRE	13
INTERIOR COLORS	16
FLOOR PLANS	19

Newmar Corporation has been helping America relax in style for 25 years. Our tradition of elegance began when the first Kountry Aire was designed in 1967. Since then, we've grown from tipouts to slideouts, from one brand to six, and from manufacturing only towables to producing Minihomes, Class A's and Diesel Pushers as well as Travel Trailers and Fifth-Wheels.

As our life has changed over a quarter century, so has America . . . in 25 years, our nation has grown from households with one TV set (often black and white) to full-blown color screens complete with VCR's and satellite dishes. We've watched a man walk on the moon. Technology has advanced to the point that computers have become household mainstays. And our lives have become so fast-paced that we've replaced personal banking with automatic teller machines, and homemade chicken soup with microwave boiling bags.

At Newmar, we've used technology to the fullest. Our innovations, such as perfecting the large slideout, have earned us industry-wide recognition as a manufacturer delivering the highest standards in the RV industry.

And while it's important to us to stay on the cutting edge of technology, some things at Newmar will always stay the same. Things like our traditions of elegance, comfort and quality. Newmar still constructs each recreational vehicle with the old-world craftsmanship and attention to detail that has become our hallmark.

At Newmar, we're proud of the past 25 years and our sincere dedication to our customers. As we celebrate, we intend to keep serving you and providing you with the best products possible. Afterall, you're the reason we're in the business.

London Aire — *Lifetime Limited Warranty on Superstructure

Newmar Corporation warrants the Superstructure which includes the following: the 16" I-beam Frame; the Aluminum Framing in the Sidewalls and Roof. If any part of the Superstructure fails to perform properly because of faulty workmanship or materials supplied by Newmar, during the ownership of the original buyer, it will be repaired without charge for either parts or labor by Newmar providing the proper claim procedures are followed. All other items excluding the Superstructure are covered under the standard Newmar 1 Year Limited Warranty. See Owner's Manual for details.

Kountry Aire, Mountain Aire — *5 Year Limited Warranty on Superstructure

Newmar Corporation warrants the Superstructure which includes the following: the 12" I-beam Frame; the Aluminum Framing in the Sidewalls and Roof. If any part of the Superstructure fails to perform properly within 5 years from the date of purchase because of faulty workmanship or materials supplied by Newmar, during the ownership of the original buyer, it will be repaired without charge for either parts or labor by Newmar providing the proper claim procedures are followed. All other items excluding the Superstructure are covered under the standard Newmar 1 Year Limited Warranty. See Owner's Manual for details.
