Diagram of a rectangular panel. The width is labeled as 15. The height is labeled as 15/16. A note next to the height dimension states: MAY VARY W./PNL'G.

A diagram of a rectangular frame. The frame is composed of two concentric rectangles. The outer rectangle has a width of 31 and a height of 30 1/4. The inner rectangle is smaller, and the space between them represents the frame's thickness. The dimensions are indicated by arrows and labels below the frame.

Figure 1 shows a plan view of a rectangular room. The room's overall dimensions are 15 units wide and 20 units high. Inside the room, there are three rectangular areas labeled "DRWR" (drawers) and a central circle labeled "B". The layout is defined by several dimensions: a horizontal distance of 12 units from the left wall to the first drawer, a horizontal distance of 15 units for the total room width, a vertical distance of 2 units from the top wall to the first drawer, a vertical distance of 1 1/2 units between the first and second drawers, a vertical distance of 5 units between the second and third drawers, a vertical distance of 7 1/2 units between the third drawer and the bottom wall, and a vertical distance of 7 units between the bottom wall and the bottom-most horizontal line. The room is divided into sections by these dimensions, with the "DRWR" areas occupying the top, middle, and bottom sections. The central circle "B" is located in the middle section, between the second and third drawers.
