

PRESENTING THE 2007 LONDON AIRE—THE ULTIMATE MODEL OF PERFORMANCE AND LUXURY.

The 2007 London Aire is an engineering masterpiece. When creating the flagship of the Newmar line, our engineers incorporated both highly evolved features and top-of-the-line amenities to give London Aire its blazing power and unrivaled elegance. An architectural wonder and majestic residence, London Aire satisfies both his *and* her appetites for fine living.

STEP INTO THE EPITOME OF *luxury.*

MANIFEST YOUR *destiny.*

When you first lay eyes on London Aire, you'll know it was meant to be.

London Aire's aggressive body styling is augmented by distinctive new front and rear caps. The Full-Paint Masterpiece Finish™ with high-gloss Super Clear Coat and Diamond Shield Front Protective Film will repel the elements and keep the full-body paint looking incredible.

Feel your confidence soar as you step inside. Like Zeus atop Mt. Olympus, you'll keep watch from high above the road through London Aire's new one-piece windshield. Sit back in the driver's seat that automatically adjusts to your preferences and experience the supreme comfort of power lumbar support, climate control and an electric headrest with built-in speakers.

A wide-angle photograph of the interior of a luxury motorhome. The space is elegantly furnished with cream-colored leather seating, including a curved sofa on the left and a larger sofa on the right. A round table with a granite top sits in the center-left. The walls are adorned with arched windows featuring white horizontal blinds. The kitchen area on the right includes dark wood cabinetry, a microwave, and a granite countertop. The floor is covered in large, light-colored tiles. The overall atmosphere is warm and sophisticated.

AWAKEN YOUR
PASSION FOR *beauty.*

Prepare to fall in love—London Aire's sophisticated ambiance and cutting-edge conveniences await.

Walk through your immaculately designed new living area. Observe the sumptuous Villa® furniture and drop-down 40" Sony® LCD TV. There's generous room to stretch out and take in a good movie, thanks to Newmar's spacious, intelligently designed floorplans with up to four accommodating slideouts.

London Aire's grand living area is a work of art with luxurious fabrics and rich hardwood. At the touch of a button, open the ivory blinds to reveal the splendor of your surroundings. Go ahead—step back and let your destiny sink in.

MAKE A *gallant* ENTRANCE.

Behold the consummate power of London Aire. Feel your adrenaline rush and your pulse race as you control the phenomenal strength of its 600-hp Cummins® engine with a 4000-MH Allison® transmission.

Equally as impressive are your new luxury coach's security and safety features. With a video monitoring security system and remote controlled rearview color camera, London Aire is brawny, bold *and* built to protect.

IMPECCABLY DESIGNED TO *delight* THE SENSES.

Whether you've had formal culinary training or are just trying a new recipe, London Aire's kitchen and dining areas are an epicurean's paradise.

Your new kitchen's gourmet amenities and stunning décor are perfect for elevating any meal to five-star status. High-end appliances come *standard* in London Aire, including the in-drawer dishwasher and convection oven.

Savor the beauty of your handcrafted hardwood cabinets. Open one of the drawers and notice how it closes with just a tap, thanks to the Blum drawer glides. Deep enough to house your cookware and necessary utensils, the cabinets' solid construction and ornate detailing are products of Newmar's legendary craftsmanship.

Whether you're cruising down the highway or cautiously driving in stop-and-go traffic, London Aire's sleek Alcoa® Durabrite aluminum wheels with automatic traction control deliver unmatched handling and precision.

Fire up the grill and invite your friends over. The game is even more exciting when it's viewed on your outdoor entertainment center, complete with a 32" Sony® LCD TV and sound system.

London Aire is a dominant performance vehicle that boasts the unparalleled power of a 600-hp Cummins® engine. Climbing up steep inclines and towing cars are second nature to this luxury coach.

London Aire is a driver's dream with features like Vorad® anti-collision cruise control and electronic chassis information built right into the dash. And with the advanced navigation system, you'll never ask for directions again.

LOSE YOURSELF IN *opulence* AND ARTISTRY.

The striking décor of your master bedroom was inspired by intricate cathedral architecture. Feel yourself being swept into another world as your eyes take in the vaulted window arches and ornamental stained glass.

Hardwood cabinets and deluxe wallpaper surround the room in elegance. There's under-bed storage and plentiful cabinet space above the headboard and under the polished countertops to stow away your extra bedding and personal belongings.

Put on your pajamas and slippers and celebrate the day's end. You're in a heavenly setting for unwinding with a good book. Or if you're more inclined, turn on the 30" Phillips® LCD TV—that ingeniously doubles as a mirror—and catch up on the day's news. Crawl into your king-sized bed with luxurious pillow-top mattress and silky comforter and let the serenity consume you.

WELCOME TO DRIVING *euphoria.*

Open London Aire's exclusive driver-side entry door and boldly take the wheel.

You're guaranteed an exhilarating experience. London Aire's well-designed driver's command center lets you focus on what's most important—the road. Its advanced navigation system and responsive environmental sensors guide you safely to your destination. And all of your controls, like almost every feature throughout your coach, are electric.

Shift London Aire into drive and tap the accelerator. You're in for a smooth, seductive ride. Revolutionary Comfort Drive® technology provides unprecedented power steering in a motor coach. This innovative feature allows your new coach to effortlessly corner the asphalt's sleek curves. It's a Newmar standard you won't find anywhere else.

London Aire's private bedroom is a master of disguise with the Phillips® LCD TV that ingeniously doubles as a vanity mirror and can also be used as a computer monitor. The vanity also houses a Bose® Wave Radio with an alarm clock and CD player for your listening pleasure.

Gather around your splendid dining table and electronically adjust the height for your comfort. Your table will hold secure while London Aire is in motion for added safety.

London Aire's accommodating kitchen makes food preparation easy and pleasurable with its spacious, easy-to-clean countertops and Franke® stainless steel sink. Your new GE® Advantium® oven uses Speedcook technology so you can have dinner ready in a fraction of the time.

Enjoy the serene, spa-like atmosphere in London Aire's powder room. The Corian® no-drip countertops, polished ceramic tile floor and spacious shower—complete with a decorative glass door, massaging showerhead and towel bars—create a soothing backdrop for your daily routine.

CONSTRUCTION

London Aire is a showcase for Newmar's exacting standards, meticulous detailing and legendary craftsmanship. The sturdy coach boasts a one-piece molded fiberglass roof and 16" on-center framing like that of a fine, site-built home.

NEWMAR EXPRESS LIMITED WARRANTY™

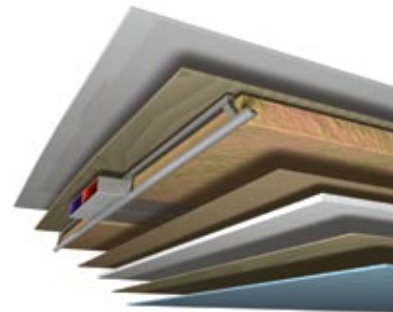

Every London Aire Diesel Bus is backed by Newmar's two-year limited warranty/unlimited miles. Ask your Newmar dealer for details.

TOTAL COMFORT™ NEWMAR CENTRAL AIR CONDITIONING

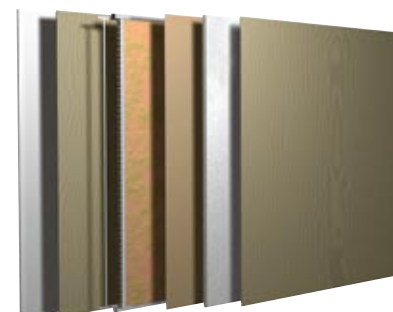

Newmar's exceptional Total Comfort central air conditioning is standard on every London Aire. The system consists of two separate fully ducted systems—one to distribute incoming cool air, the other to quickly and effectively remove warm air from your living area.

Lengths, heights, widths and dry weights are approximate. Weight will vary based on optional equipment added to the above base weight.

GAWR: Gross Axle Weight Rating is the maximum permissible weight for an axle.

GVWR: Gross Vehicle Weight Rating is the maximum permissible weight of a fully loaded motor coach.

GCWR: Gross Combination Weight Rating is the value specified by the manufacturer of the vehicle as the maximum allowable loaded weight of this motor coach and any towed trailer or towed vehicle.

UVW: Unloaded Vehicle Weight is the weight of this motor coach as built at the factory with full fuel, engine oil and coolants. The UVW does not include cargo, fresh water, LP gas or dealer-installed accessories.

NCC: Net Carrying Capacity is the maximum weight of all occupants, including the driver, personal belongings, food, fresh water, waste water, LP gas, tools, tongue weight of towed vehicle, dealer-installed accessories, etc., that can be carried by the motor coach.

*Specifications supplied by the chassis manufacturer.

Spartan® K3 Chassis

When they built the K3, Spartan's engineering team threw conventional design out the window to create the strongest chassis ever built. The web of tubular truss-frames and sub-structure support beams create a solid, stable foundation with extensive pass-through storage. The K3 offers a GVWR of 50,600 lbs. to 54,000 lbs., with a 14,000 lb. tag axle. The high GVWR and sound structural design allow OEMs to expand the coach body beyond the chassis footprint, adding additional living space to the motor coach's interior. When you drive your coach built on a Spartan K3 chassis, you can be confident that you have the most powerful, highest-performing coach on the road.
