Subject: Happy Travels!

Jillian —

I wanted to drop you a line and let you know your father and I are having so much fun in our new Kountry Aire. What a difference!! :) Talk about luxury and quality rolled into one! And the peace of mind its sturdy construction offers is like none other. We can't wait to show off all its posh features (like the fireplace and hardwood cabinets) when we see you. Kiss the kids for us.

XOXO — Mom

Subject: Relaxing in style

You can't believe how luxurious this Kountry Aire is. Nora and I are having a great time hitting the road and seeing the sights, and after a long day of traveling, I love unwinding in such a comfortable living space. Of course Nora keeps going on about how beautiful it is...how elaborate the décor is...how plush the fabrics are...how rich the hardwood is. All I need is the glider recliner and entertainment center...it can even come with HDTV!

So how's work treating you? ;)

Bob

37RLCS floorplan shown with Raffia décor and Coastal Cherry Hardwood.

Savor a scrumptious meal or contemplate winning chess moves at the freestanding Super Slider hardwood dinette. The opulent chairs house all your miscellaneous travel needs thanks to the in-seat storage.

Soak in the *Ambiance*

As an added comfort in cool climates, upgrade to the optional PrecisionTemp™ LP Hot Water Heater and Hydronic Heating System. It provides instantaneous, unlimited hot water for regular use, as well as whisper-quiet space heat efficiency for the coach. You can also stay warm and cozy in front of the optional fireplace available with a beautiful Corian® hearth.

The well-appointed entertainment center comes complete with an LCD TV (32-inch or 37-inch, depending on floorplan) and Surround Sound system with DVD, CD and AM/FM stereo tuner, pre-wired satellite hook-up and optional high-definition wiring. An optional universal remote makes channel surfing even easier. When you need to logon, rest your laptop on the desk located just below the television on select models.

FMD

Extra Mile Differences

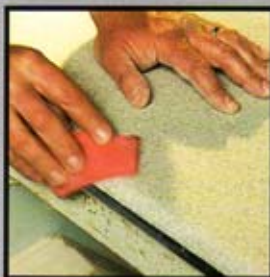

Another Newmar Innovation, the Slideout Cog Wheel, was designed for a fuller engagement of the gears to prevent common gear slippage. The complete slideout system – from the superior-strength foundation through the durable high-torque motor mechanism, to the independent operation and the unique self-storing travel-lock arms – is designed to provide years of convenient, smooth, dependable service.

EMD

Extra Mile Differences

Kountry Aire Corian® Radius Countertops are hand-sanded, custom-fitted and seamlessly integrated with backsplashes and in-line sinks to create a single surface with no cracks for easy clean-up. They are non-porous, and heat and scratch resistant. Newmar craftsmen expertly fit, finish and install them.

Create any cuisine with state-of-the-art appliances, such as the raised-panel, optional four-door Norcold® refrigerator with water dispenser; convection microwave oven; and flush-mounted, recessed three-burner cooktop with electronic ignition.

From the cathedral overhead compartments to the fully adjustable slideout pantry shelves, the raised-panel hardwood cabinets offer ample space and rich beauty.

Decked out in indulgent leisurely style, Kountry Aire features optional ceramic flooring for absolute grandeur and durability. Polished Corian® countertops, sink and range covers with radius curves take the edge off your kitchen duties.

Prepare to be

U t t e r l y

Delighted

FMD

Extra Mile Differences

Hardwood Cabinets are created by Newmar designers and constructed one at a time by skilled cabinetmakers. For increased stability, the frames are both glued and screwed. The finish is completed after assembly for a superior, unitized presentation.

Lose yourself in the roomy one-piece fiberglass shower with privacy rain glass, molded seat, adjustable-height showerhead, courtesy light and skylight.

Relax

in Absolute L u x u r y

Let peaceful rest envelop you in the queen-sized bed with hardwood headboard, suede bedspread and pillow shams. When day breaks, prepare for the adventures ahead at the in-room vanity on select models.

Take advantage of plentiful storage in the hardwood bureau, under-bed space and the cedar-lined SuperStorage™ wardrobe with laundry hamper.

EMD

Extra Mile Differences

The Total Comfort® Dual In-Roof Ducting System was engineered by cooling experts especially for Newmar. With multiple strategically placed vents, the system provides true central air conditioning for unparalleled cooling efficiency, balance and whisper-quiet operation.

Q

Examine the Quality Construction

(A) The Optional Rear Ladder provides easy access to the strong, BriteTEK™ covered walkable rooftop.

(B) Expansive SuperStorage™ Pass-Through Storage Area is heated and lighted. It boasts a pullout storage tray, a handy cargo hook, cargo net and three-way access. Hydraulic assist struts on the compartment doors allow for easy loading and unloading of items and are adjustable for hold-open heights.

(C) Frameless Windows are an optional feature with double panes and tinted safety-glass for added beauty, energy efficiency and protection.

(D) Manually Operated Sliding Porch with triple step and handrail is standard. It provides a wider platform for safety and stability entering and exiting the coach. A power option to the porch (shown) is also available with easy-to-reach controls in a weatherproof compartment.

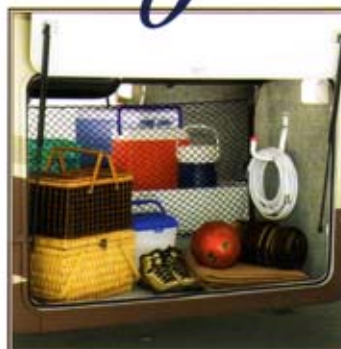

(E) Kountry Aire Tows Dependably on Dual Tandem Axles and 16-Inch UniRoyal® Tires as standard equipment. MOR/ryde® suspension cushions and absorbs road shock to provide a softer ride and smoother, safer towing. Stainless steel wheel simulators are standard, too.

(F) MOR/ryde® Pin Box allows you to enjoy a smooth, comfortable towing experience. The optional pin box diminishes the transfer of forces from the fifth wheel to the truck, acting as a cushion to reduce the effect of road shock.

(G) The PrecisionTemp™ LP Hot Water Heater and Hydronic Heating System option is a compact, lightweight unit that serves up unlimited hot water and hydronic space heat for your RV. This powerful 55,000 BTU, clean-burning upgrade boasts 35% more fuel efficiency than standard propane systems. Its dual-purpose heating system provides continuous hot water while maintaining the temperate comfort levels needed in the coach.

From: Bruce**To:** Will**Subject:** You have to see this

I just wanted to drop you a line to say you have to see this Kountry Aire! Newmar built it with luxury on the inside and nothing but strength and durability on the outside. From

its smooth, comfortable towing to its easily accessible basement storage and everything in between, this 5th wheel aims to please and hasn't disappointed us yet! Take a look at the pictures I attached.

On the road, Bruce

EMD

Extra Mile Differences

Newmar Pioneered and has a Patent on the Flat-Floor Slideout.

Sliding a room in and out poses some out-of-the-way engineering and sealing challenges to do it right. Newmar developed an improved slideout wedge roof design that forms a tighter closure when the room is extended. A specially developed double-bulb, superior-memory seal provides protection from outside elements and insects, and sweeps off debris on room retraction.

Experience

the Difference

EMD

Extra Mile Differences

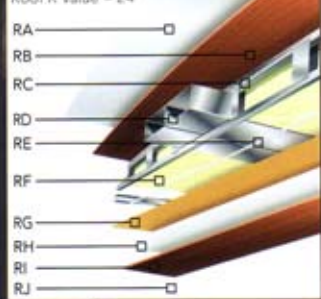

An Incomparable Superstructure, the Kountry Aire Chassis is designed and built by Newmar with stronger steel, extra reinforcements and additional welds to make it exceptionally robust. The huge 12-inch steel I-beams provide superior Moment of Inertia (stiffness) and Section Modulus (bending stress) over smaller, thinner I-beams and stacked tube steel. Engineers take advantage of the entire height of the I-beam to attach full 12-inch steel outriggers for extended stability and strength. Many other outriggers are partial-height. Newmar believes that a home on wheels should start with a solid and stable foundation.

Your Kountry Aire fifth wheel reflects Newmar's long history of product innovation and industry "firsts." You can depend on the exacting standards and meticulous care by which this fifth wheel is built. It's a showcase for Newmar excellence.

Newmar Express Limited Warranty

As proof of our commitment to you, we at Newmar back every Kountry Aire fifth wheel with our industry-leading, one-year Newmar Express Limited Warranty. Ask your dealer for details.

The Limited Five-Year Structural Warranty

If any part of your Newmar recreational vehicle superstructure (which is the steel/aluminum structure of the sidewall, roof or frame) fails to perform properly within five years, from the date of purchase, due to faulty workmanship or material supplied by Newmar, it will be repaired without charge for either parts or labor by Newmar. This structural warranty is available only to the original purchaser and is non-transferable.

Extra Mile Differences

The Newmar-Originated Slideout, with its 2x4 steel rails and massive reinforcement, is the strongest, most reliable and most durable on the market. A superior-strength platform results from welding hefty guide rail tubes to both mainframe rails and welding extra reinforcement into the system. Closed-channel frames keep small animals and outside debris from entering the coach.

Wrap Yourself in *Beauty*

Newmar designed the Kountry Aire décor choices to enhance your travels by surrounding you in a rich, lavish ambiance. From the standard palate to the alternative choices, each offers an elegance that will welcome you home no matter where your travels take you.

Extra Mile Differences

Newmar-Made Skid Bars are a lot different from the flimsy ones that are more commonly used. Constructed of thick bar steel and reinforced with even more steel,

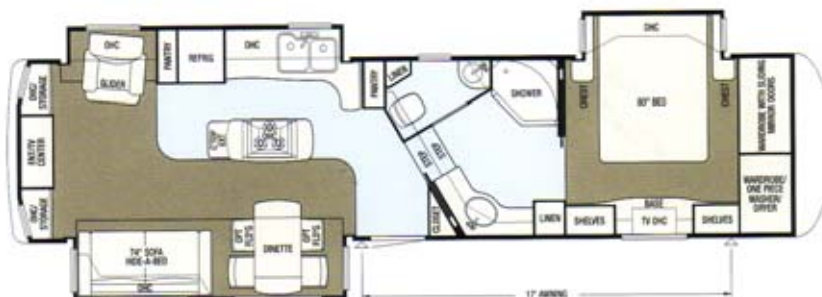

this is the super-duty, real-world version to help protect the RV underbelly from abruptly angled roadway approaches. A Newmar exclusive.

Subject: Re: Home Sweet Home

I'm glad to hear the family is good. Yes, we are having a great time. I know this sounds cliché, but this Kountry Aire truly is a home away from home. The comfort, beauty and absolute luxury of this unit make me want to stay on the road so I can enjoy more of this quality 5th wheel. This is how RVing was meant to be! Check out these pics of our new "home."

Traveling in style,

Jessica

Extra Mile Differences

Kountry Aire Floors are extraordinarily heated, double insulated and constructed using 24-foot continuous run sheets of Weyerhaeuser sub-flooring. Fewer seams reduce the infiltration of noise, moisture, and outside heat and cold. Most other RV floors are insufficiently heated in the extremities and pieced together with 4-foot sheets.
