### **Product Information**

Horizon Transport has an area for Dealers to log in and access their system direct.

- This will allow the dealers to check and follow Horizon transporting units.
- Please read the attached information for instructions on logging in for updates.
- When checking unit status, you must use the last 5 of the serial number to complete the search.

If you have any questions, please feel free to call Rob Jackson at 800-320-4055 ext.123 or Horizon tech support at ext 153 (Kim White)

## Dealer log in

The dealer log in/services area now provides each dealer with the opportunity to log in from any pc and check unit status. This will show the delivering dealer all units assigned to this dealer from all origin points The advantage of this tool is that "anyone" at the dealer can gain access to unit status. Each dealer has a unique access code and password that they will access only from Horizon.

#### Log on to: www.horizontransport.com

#### Main log in home page

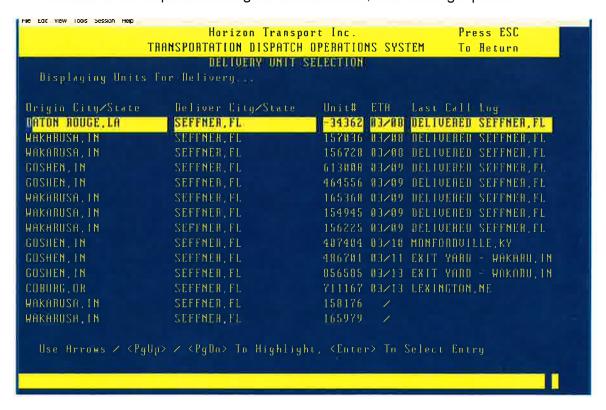

Each dealer will have this home page area (see below) in which to check unit status, offer feedback, access tech support, place an order (if dealers require their own service for dealer to dealer moves, shows, etc.) and RV related links. We also slotted in a national weather map so they can get a feel for potential delays due to pending weather and a bulletin board where we can post items to the dealer network applicable only to them.

# Dealer log in

#### What will the dealer see?

Screen 1- All shipments assigned to the dealer, from all origin points

Screen 2- Details for each individual shipment
