12/16/2010	Procedure for returning Gustafson Lighting	004

YEAR / BRAND / TYPE / MODEL #

- This pertains to all motorized and towable units still in warranty returning

Product Information

Please note, when replacing Gustafson fluorescent lights, please follow these requests.

- There must be 4-5 inches of wire left coming out of the fixture to allow for proper testing.
- There must be no writing with a permanent marker anywhere on the light fixture.

Improper wire length – testing can't be performed.

Proper wire length - can be returned for warranty replacement.
