ADDITIONAL WINTERIZATION STEPS FOR
A RESIDENTIAL REFRIGERATOR

008

YEAR / BRAND / TYPE / MODEL #

These additional steps must be performed when winterizing a unit with a residential refrigerator.

PRODUCT INFORMATION

Please perform these additional steps after winterizing a coach that has a residential size refrigerator.

- 1.) Close off the valve on the water supply line to the refrigerator.
- 2.) Clean all excess antifreeze out of the icemaker area.
- 3.) Re-install the icemaker tray.
- 4.) Put a **CLEAN** absorbent towel in the chute on the inside of the refrigerator door (**See Figure A**).
- 5.) Put a **CLEAN** absorbent towel in the water dispensing area outside of the refrigerator door (**See Figure B**).
