PRODUCT INFORMATION BULLETIN		
DATE ISSUED		PIB #
	DEXTER AXLE LABEL CHANGE	021
YEAR / BRAND / TYPE / MODEL #		
<p>This information is intended to introduce the new two-part labels used on the axles manufactured by Dexter Axle. These axles are used on Newmar's Fifth Wheels and Travel Trailers.</p>		
PRODUCT INFORMATION		
<p>Dexter Axle has just informed that they will begin using a two-part label for their axles. The top section will be affixed to the axle tube and the bottom perforated section will be removed from the top label and placed on the inside cover of the Operation Maintenance Service Manual. This new label will make it easier for the end user when needing replacement parts for their axle.</p> <p>For more information, please refer to the attached Product Bulletin # 356 released by Dexter Axle.</p>		

If you have any questions regarding this P.I.B., please contact a Warranty Service Representative at Newmar Corporation.

PRODUCT BULLETIN # 356

Page 1 of 1

Date: September 19, 2011

Subject: Axle Label Change

We are making a running change to the one-part label currently being affixed to each axle. The new label will have two sections. The top section will be attached to the axle tube. The perforated bottom section should be removed and placed on the inside cover of the Operation Maintenance Service Manual to be included with each trailer.

The bottom section will contain the serial number of the axle, Dexter part number if available, capacity of the axle, hub face (HF) and spring center (SC), or outside of bracket (OB) if it is a Torflex axle. This information will be helpful to the end user when needing replacement parts for their axle. Below are examples of the new two-part label.
