PRODUCT INFORMATION BULLETIN

DATE ISSUED		PIB #
10/01/2012	Dexter Axle replacement seal advisory for 10K GD Axles	29

YEAR / BRAND / TYPE / MODEL #

The intent of this Product Information Bulletin is to inform that Dexter is advising to use a replacement axle seal due to potential interference fit with some 10K GD seals due to a stack up of tolerance.

PRODUCT INFORMATION

Please review the attached Product Bulletin from Dexter Axle to understand what replacement seal should be used when a seal is needed to be replaced in the 10K GD, D100G, D90 and 13G axles.

- **DO NOT USE** Dexter part # 010-051-01
- **START USING** Dexter part # 010-051-00

SERVICE BULLETIN # 005R

Page 1 of 1

Date: February 17, 2012

Subject: 10K GD Seals (use Dexter part # 010-051-00, DO NOT USE Dexter part # 010-051-01)

As stated in our Service Bulletin SB-005, dated January 9, 2012, Dexter Axle has determined that there is the potential of interference fit with some 10K GD seals due to a stack up of tolerances.

Dexter is in the process of modifying the tolerances of its one and two piece hub and drum to eliminate this potential.

In the meantime, Dexter advises to use Dexter part # 010-051-00, which is a National/Federal Mogul Brand seal, red outer diameter (OD) seal. The National aftermarket part is # 370450A. These seals must be used for any seal replacement in the 10K GD, D100G, D90 and #13G axles.

DO NOT USE Dexter part # 010-051-01 for these applications until further notice.

The hub part numbers are 008-288-xx and 008-415-xx.

You can contact your Dexter supplying location to purchase National (red) seals.

If you have additional questions or need further assistance, please contact your Dexter sales engineer.
