Description

Flexsteel has informed Newmar Corporation that a kit needs to be installed on bi-fold pull out sofa sleepers (SSCS) to prevent retention cables from getting pinched in the hinge.

Issue: If a cable gets pinched in the hinge, damage may occur to the sofa cable. If both cables are detached, broken, or defective, and only one person is on the bed lying closest to the sofa back/wall of the coach, the unit may pivot and potentially place the occupant on the floor or between the bed and the back of the sofa.

Recommended Action

Correction: The new parts kit will route the cable away from the hinge. Order parts kit # 024688 through Newmar Parts Department, and follow the attached instructions to remove existing cable, and reroute new replacement cable.

Flat Rate Code: TSB 443
Labor Time: .4 hr.

Please read this bulletin in its entirety prior to beginning any diagnosis or repairs.

If you have any questions regarding this T.S.B., please contact a Warranty Service Representative at Newmar Corporation.
