TECHNICAL SERVICE BULLETIN

DATE ISSUED	MODEL YEAR(S) AFFECTED	TSB #
9/14/2017	2014-2017	479
BRAND		
Bay Star Sport ☐	Ventana ☒	Essex ☐
Bay Star ☐	Dutch Star ☐	King Aire ☐
Canyon Star ☐	Mountain Aire ☐	Other ☐
Ventana LE ☒	London Aire ☐	
DESCRIPTION		
Newmar Corporation has decided that certain coaches built on a Freightliner chassis and equipped with Equalizer leveling jacks may have air bags that do not inflate correctly during jack retraction, which could cause air depletion from the air bags. Issue: Equalizer recommends starting the coach and allowing the chassis air pressure to build before pressing the “All Retract” button to ensure adequate air supply to the chassis air valves. Failure to start the engine and pressurize the air system may contribute to the improper inflation of the air suspension system. Do not drive the unit without the air suspension system fully inflated. If for any reason the suspension is deflated, operate the “All Retract” function on the jack panel while the coach is parked with the air tanks at full pressure. Potential Units Affected: 2014-2017 Ventana LE and 2017 Ventana coaches – Refer to the attached population list for specific coach and VIN numbers.		
RECOMMENDED ACTION		
Correction: If the condition exists, replace the Equalizer control module with a newer revision, which will send an additional inflation signal to the chassis dump valve (Newmar part # 025892). Contact your Newmar Service Account Manager to obtain authorization and order the appropriate parts. Once the module has been replaced, the coach will need to be leveled manually and the null will need to be set. Instructions: Locate the Equalizer module near the middle of the baggage compartments between the frame rails. Unplug the connector(s), remove the mounting screws, and mount the replacement module in the same orientation and location. Then plug the connector together. Set the null by following the vendor instructions, which are located within Newmar’s Newgle site. Technicians with access to the site will be able to find the instructions at the following location: Chassis > Leveling Systems > Equalizer Leveling Systems > Equalizer Auto Level – Programming Instructional Video. Flat rate code: TSB 479 Labor Time: .5 hr. to replace and set null <i>(Prior authorization required)</i> <u>Please read this bulletin in its entirety prior to beginning any diagnosis or repairs.</u>
