DESCRIPTION OF PROBLEM						
Restraining of Specialty window day/night shades.						
RECOMMENDED SOLUTION						
Attached is a drawing of procedures to restring Specialty window day/night shades. Specialty windows have agreed to supply the string and pay \$12.00 labor if a dealer or customer wishes to restring the shades themselves. If this is not agreeable, shades are to be sent to Newmar for restringing. Newmar will not pay in excess of \$12.00 for the restringing of shades.						

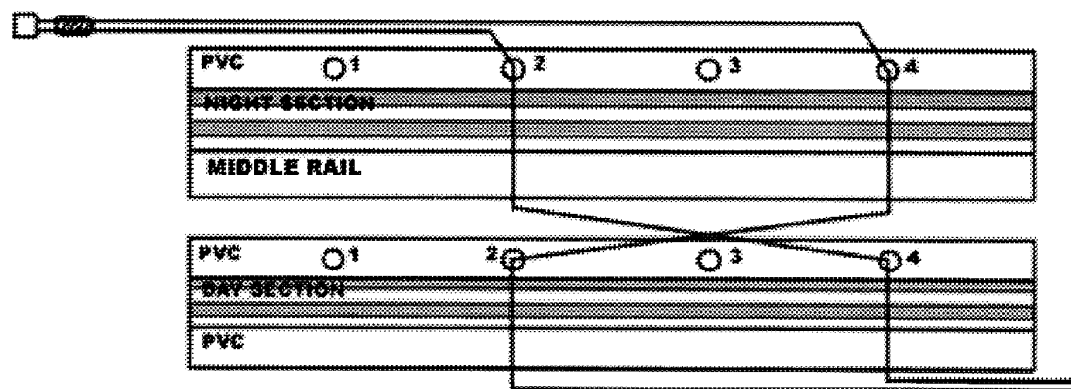

If you have any questions regarding this T.S.B., please contact a Warranty Service Representative at Newmar Corporation.

## Re-Stringing Instructions

### SPECIALITIES WINDOW DAY/NIGHT SOFT SHADES

Starting from the left (with the end cap, spring and cord) string one cord through the second hole (counting from the left) on the top (NIGHT) section of the shade. String the same cord through the fourth hole (still counting from the left) on the sheer (DAY) section of the shade. String the remaining cord through the fourth hole (counting from the left) on the top (NIGHT) section of the shade. String the same cord through the second hole (still counting from the left) on the sheer (DAY) section of the shade.

Starting from the right (with the end cap, spring and cord) string one cord through the second hole (counting from the right) on the top (NIGHT) section of the shade. String the same cord through the fourth hole (still counting from the right) on the sheer (DAY) section of the shade. String the remaining cord through the fourth hole (counting from the right) on the top (NIGHT) section of the shade. String the same cord through the second hole (still counting from the right) on the sheer (DAY) section of the shade.

At the end of assembly, take cord #1 and #3 to the left and cross cord #2 and #4 to the right. Slide on the bottom rail and attach the end caps. Put the cords through the holes on the end.
