<input type="checkbox"/> Construction Components				<input type="checkbox"/> Windows, Awnings, Vents, & Doors			
DESCRIPTION OF PROBLEM							
<p>Depending upon the driver's seat height, the transmission light indicator may be slightly obscured on the 2001 Mountain Class A products or on the 2002 Mountain Aire Class A, Kountry Star Class A, and Dutch Star Class A products.</p>							
RECOMMENDED SOLUTION							
<p>To correct this, relocate the instrument cluster. First, remove the wood grain cluster cover and remove the cluster. Next, drill holes on all four mounting tabs 1/4" above the current holes. Re-assemble the cluster using the new holes as the mounting point. This will shift the cluster down approximately 1/4" allowing clearance upon completion. Please use flat rate code #15420603, which allows .8 hour to complete.</p>
