# PRODUCT INFORMATION BULLETIN

## DRAIN MASTER electric waste valves

February 13, 2007 - Phase Four Industries has added a new feature to the Drain Master electric waste valve. The Drain Master valve now has a 1/8" hex head on the double sided manual override. This new addition makes using the override in an emergency easier, especially when the valve is located in difficult to reach places. This change is effective immediately on all valves, no change in part number or pricing.

The old screw slot override was difficult to use when easy access was not practical such as on a fifth wheel with a belly pan.

Phase Four Industries specializes in RV Waste Management and we welcome your input. Our overall goal is to make dumping RV holding tanks as uneventful as putting gas in a car.

For more information or any questions, please feel free to call us toll free - 877-787-8833 or 831-636-9775. [www.phasefourindustries.com](http://www.phasefourindustries.com)
