NEWMAR CORPORATION WARRANTY DEPARTMENT

SERVICE BULLETIN

March 12, 1991

To: All R.V. Service Personnel
From: Kwikkee Products Warranty/Service Department
Subject: Control Units

We are receiving control units returned for warranty with connecting plugs cut off.

All of the wires for the control unit are designed to unplug from the coach wiring. There is no reason for these plugs to be cut off. This procedure can make it difficult to test and evaluate causes of malfunctions. In addition, it may void the warranty of the unit.

Effective immediately, control units returned for warranty that have the wiring plugs cut off, will not be considered for warranty purposes and will be returned to the sender.

If you have any questions, please feel free to contact our service department at 1-800-736-9961.
